PEACE TREATY DRAFT OUTLAYS WAR

OLIVER BACK FROM FIGHT ON CROW'S NEST RATES; OUT FOR RELIEF FOR B.C.

Appeal to Governor-General-in-council Will be Made if Province is Not Helped by Railway Boards Ruling Upon Recent Hearing of Discrimination Complaints, Says Premier.

Vancouver, Oct. 1.—No matter which way the Board of Railway Commissioners adjudicates upon the recent hearing of complaints against discriminations arising from restoration of the Crow's Nest Pass agreement schedule of freight rates there will be an appeal.

This conviction was expressed by Premier Oliver on his return from Ottawa this morning.

"Certainly if British Columbia is not granted relief we shall appeal to the Governor-General-in-council," he stated.

Mr. Oliver stated that the railways made no serious attempt to answer the complaints of discrimination either as between commodities of districts, but relied upon two main contentions:

1. That the Crow's Nest Pass Agreement Act was superseded by the General Railway Act of 1903 (a consolidation) and should not now have any effect in fixing rates.
2. That if the Board held the Agreement Act to be binding then the act was of itself a sufficient justification and answer to the complaints made.

THOUGHT ARGUMENTS WEAK

"For myself I think that the first question to be decided would be whether the 1903 act wiped out the agreement," said Mr. Oliver. "But I thought the argument of the railways counsel on this point very weak, especially as it reversed their position maintained for twenty-one years up to July last. It is my impression after listening attentively to the evidence and argument lasting for seven days, that for the Board to support the railway contention in this matter would be an offence against morality, and would very materially weaken the confidence of the public in the Board and in Parliament itself, as the Crow's Nest Pass Agreement Act has been treated as binding and valid in scores of decisions of the Board and by Parliament for twenty-one years."

CRITICIZES BOARD

"Another impression," he said, "is that the Board is not, in my opinion, functioning to the best advantage. Many of these issues that form the basis of complaints involving large expenditures of time and money could be anticipated by the Board and remedied without the complaints being formally registered, and full dress trials being staged. Many of the questions that come before the Board pertaining to such matters indicate that the Board could easily remedy them of its own initiative without putting complaints to the expense of these hearings."

LAND ASSESSMENT OF CITY NEXT YEAR WILL BE LESS; IMPROVEMENTS INCREASE

The assessment of Victoria in 1925 will be lower on land values and increased valuation of improvements will occur. This became evident when the civic court of revision on the assessment roll began its business this morning, a comparative table being filed for the information of the court.

Subject to the work of this court, the gross land valuation in 1925 will be \$36,451,873, and the gross improvement valuation \$39,747,700, from which it to be deducted \$6,813,170 on land exemptions, and \$11,425,830 on improvement exemptions. This gives a net assessment of \$29,638,703 on land and \$28,321,870 on improvements.

Contrasting with the present assessment the figures are: Gross land valuation \$27,062,528, gross improvement valuation \$39,007,170 in 1924, land exemptions \$5,958,960, improvement exemptions \$11,155,470. This gives a net assessment of \$31,103,568 on land, and \$27,851,700 on improvements.

It will thus be seen that the land cut is \$1,464,862, and \$470,170 increased on improvements.

For taxation purposes the City Council will further have to deduct the value of the reverted lands held by the city of which title has been secured.

The land values of Victoria are apparently set at about one-third of what they were in the boom years.

ASSESSMENT HISTORY

Alderman Todd, chairman of the court, addressed the gathering when the court came to order to point out that the assessment and the court of revision had for some years past followed a policy that was resulting not

PREMIER ILL, GOES TO BED AT HOME HERE

Will Not Return to Office For Several Days; Needs Rest And Quiet

Premier Oliver reached here from Ottawa to-day, suffering from a bad cold. An automobile met him at the boat and rushed him home, where he went to bed immediately. It may be two or three days before the head of the Government will be able to go to his office and grapple with the many questions which await his attention.

Questioned about the effect of the North Okanagan by-election, the Premier said that he had not had an opportunity to consider the matter. He added that he would make no announcement on a successor to Hon. K. C. MacDonald, Provincial Secretary, until he had consulted with the Cabinet.

"I know nothing of the by-election," he said. "All I know is that I got a wire from Dr. MacDonald saying that he was defeated."

That a commonsense solution of the dispute between the Lands Department and the Vancouver city authorities over the proposed sale of timber on the Capilano watershed could be reached was the Premier's confident statement. He added that he hoped to take up this question and bring about a settlement as rapidly as possible.

Arrangements for a full Cabinet meeting to-morrow will be called off in view of the Premier's indisposition. It is hoped that all the ministers will be able to get together before the end of the week.

COOPERAGE PLANS

A special session of the City Council was called this afternoon for the purpose of deciding whether an application should be made in the City's Private Bill to enable the council to give a fixed rate of taxation to the Canadian Western Co-operative Limited, to induce it to build on the Sobera Reserve, on the site of the Harbor Marine Company.

Only by private legislation can such privileges be given, except by vote of the ratepayers as was done in the Empress Hotel case, last December. The company proposes to build a \$100,000 plant to replace that destroyed by fire at Esquimalt recently, and several sites have been offered on the lower mainland and here.

CHINA IS DIVIDED BY CIVIL WAR

Sketch map showing the political divisions into which China is resolved at the present time. In respect to the above map the reference to pro-Chihmi or anti-Chihmi means political party ascendancy only. There is no evidence that the people of these provinces are interested in the dispute. The Chihmi party to-day controls the heart of China, the valleys of the Yangtze and of the Yellow River. It controls the provinces of Chihli, Shantung, Honan, Anhui, Kiangsi, Kiangsi, Hupeh, Shensi, Szechuan and Fukien. The principal railways running through these provinces are the Shanghai-Nanking Railway, the Tientsin-Pukow Railway, the Kihnan

TWO THOUSAND KILLED AND WOUNDED IN SHANGHAI FRAY

Shanghai, Oct. 1, 12.45 p.m.—The battle which had been in progress for four days west of this city between the forces of the rival Tuchuns of Chekiang and Kiangsu, has apparently come to an end with neither side gaining any advantage, the Lungwha headquarters of the Chekiang army reporting the battlefronts unchanged. The firing has subsided.

Prisoners taken by the Chekiang army in its recent offensive north of Shanghai-Nanking Railway told their captors that Kiangsu had lost 2,000 killed and wounded in this battle.

GENERAL ENGAGEMENT

Tokio, Oct. 1.—A general engagement between the forces of Chang Tso-Lin, Manchurian leader and Peking troops opposing Chang's attempts to take over the Central government of China, was in progress to-day on the Jehol front, according to announcement made from the Mukden headquarters of Chang's army and received here to-day. The same announcement told of the capture of Chihfeng, 150 miles north of Jehol, by Mukden troops.

A reward of \$100,000, Mexican, has been offered by General Chang for the heads of either president Tsao Kun of China or General Wu Pei-Fu, and \$200,000 Mexican, for the capture of either alive, according to the Nichi Nichi's Mukden correspondent.

The offer by General Chang was made after advice was received in Mukden from Peking announcing that President Tsao had declared General Chang a bandit and a traitor and had offered a reward to anyone who would turn him over to the Government.

U.S. PARTIALITY

The Jiji Shingpo's Mukden correspondent says that General Chang, in an interview, has charged that Americans favored the Peking government in the present conflict.

"This shows my defeat would be tantamount to Japan's defeat," said General Chang, referring to alleged American partiality to his rivals. "I am sure the efforts of my rival, General Wu Pei-Fu to gain the sympathy of Japan will fall in view of his close association with the United States."

OTTAWA MAN MURDERS WIFE AND CHILDREN

Ottawa, Oct. 1.—John Buchanan Pirie, a bookkeeper for the Ottawa Electric and Gas Company, walked into the Ottawa police station shortly before 9 o'clock this morning and calmly informed the sergeant in charge that he had murdered his wife and two children and that he would have ended his own life but did not have the nerve. Pirie was detained and police immediately went to a house at 32 Grove Avenue, where Pirie had been rooming with his family and found Mrs. Pirie and the two children dead in their beds.

MINISTER OF AGRICULTURE DECLARES SAANICHTON FAIR FINE TRIBUTE TO DISTRICT

Hon. E. D. Barrow, Minister of Agriculture, this afternoon at Saanichton opened the Fifty-sixth Annual Exhibition of the North and South Saanich Agricultural Society, there being a large attendance of members and spectators to welcome the Minister.

After a tour of the hall and an inspection of the livestock, Mr. Barrow declared he could appreciate the justice of the claims of Saanich to being an ideal home land, able to well reward the labor of skilled cultivators.

The high quality of the wide range of soil products, was touched upon by the Minister with praise. He foresaw the early arrival of a time when Saanich will have built up a great seed potato business, as a result of the rapid strides being made in the production of certified seed on a commercial basis.

Mr. Barrow was greatly interested in the work of the ladies of Saanich, congratulating the menfolk on their happy lot after he had inspected the great array of cakes, bread and preserves which this year are such a strong feature of the fair.

CO-OPERATIVE MARKETING

The trend among farmers towards co-operative marketing was touched upon by Hon. Mr. Barrow with appreciation of the progress made by Saanich farmers.

(Concluded on page 2)

DEFENCE OUTLINES EVIDENCE PENDING AT BOAK TRIAL

Blood on Car Might Have Come From Hands Soiled at Body Examination

Defence Argues Boak Car Had No Part in Killing; Arrived When Men Dead

That the bodies of David Balmantyne and Alexander McLachlan were found over sixty feet away from the spot pointed out by the Crown as that on which they met their end, and that the Boak car had no part in that killing were submissions made by H. A. Maclean, K.C., counsel for the defence, in opening remarks before the jury in the assize hearing of Rex versus Boak, entering its seventh day this morning before Mr. Justice Murphy.

The defence, said Mr. Maclean, would show that the Boak car had nothing to do with the fatality, or alternatively that if by some mischance it had that the event had been purely accidental, and in neither case could blame attach to the accused.

DEFENCE COUNSEL OPENS

Mr. Maclean said the court was already well advised on the main factors of the case. All he proposed to do at the present time was to outline the evidence to be called by the defence. He would comment later on the evidence adduced by the Crown. The Crown called fifty-six or fifty-seven witnesses, and of necessity much of the evidence was not in its chronological order, and needs putting in its proper light.

As the court knew, on the night of August 20 Dr. Fraser had a little social affair at Brentwood. Most of the local doctors were there, including—(Concluded on page 2)

LEAGUE OF NATIONS PLAN PROVIDES FOR ARBITRATION OF EVERY KIND OF DISPUTE

Prohibits War of Every Description and Lays Down Rule All Troubles be Settled by Pacific Means; Urges Speedy Ratification to Pave Way for Disarmament Conference

Geneva, Oct. 1.—The amended draft protocol on arbitration and security was presented to the assembly of the League of Nations for its approval to-day, accompanied by a general report, historical and analytical in nature, by M. Politis of Greece and Dr. Benes of Czechoslovakia, official representatives of the two commissions which jointly framed the document.

Special chapters are devoted to condemnation of aggressive war, compulsory jurisdiction of the World Court of justice, the strengthening of pacific methods of procedure, the domestic jurisdiction of states and sanctions and reductions of armaments, all of which form features of the protocol. The conclusion of the report, which fills twenty printed pages, contains observations of a general nature.

Browne Dismissal Draws Criticism of Burnaby Council

Vancouver, Oct. 1.—Citizens of Burnaby are taking steps which it is hoped will force the Burnaby Municipal Council to rescind its action in dismissing Frank Browne, M.P., from his post as municipal accountant because of his election to the Provincial Legislature.

TO OUTLAW WAR

"Our purpose," says the report, "was to make war impossible. The plan drawn up leaves no loophole; it prohibits war of every description and lays down the rule that all disputes shall be settled by pacific means."

"If the smallest opening was left for any measure of force the whole system would collapse, and to this end arbitration is provided for every kind of dispute and aggression is defined in such a way as to give no cause for hesitation when the council of the League has taken a decision."

The reporters declare that these reasons led the framers of the protocol to the view that the League covenant and define sanctions in such a way that no possible means would be found for evading them and that there would be a sound definite basis for a feeling of security.

PEACE OF WORLD

"The peace of the world is at stake," continues the report. "The fifth assembly has undertaken a work of world-wide importance which if it succeeds in securing profound modification of present political conditions, will have rendered inestimable service to the world."

The report ends by begging the assembly to examine the proposals with care and recommend them to the various governments for acceptance. The problem of the domestic jurisdiction of states raised by the Japanese delegation is treated at great length. Insistence is made that the protocol is a step towards the rule of Article 15 of the covenant which protects nations' sovereignty, but that "in order that no doubt may exist it appears advisable to say so expressly."

TO SAFEGUARD PEACE

Nevertheless, while the principles of Article 15 of the covenant is maintained, the reporters explain that it has been found necessary in order to make its application more flexible to call in aid the rule of Article 11 of the covenant, which makes it the League's duty in event of war to take any action deemed wise and effective to safeguard peace and obligates the secretary-general to summon a meeting. LADY KINDERSLEY'S CREW WERE RESCUED JUST BEFORE SHIP WAS CRUSHED BY ICE

Ss. Baychimo Makes Port To-day With Capt. Gus Foellmer and Five of Rescued Crew Aboard; Men Who Were Marooned on Ice Graphically Relate Experiences.

"If we had stayed with the ship one day longer not one of us would have had a chance," said Capt. Gus Foellmer, hero of a score of escapades in the relentless Arctic, on his arrival in quarantine to-day aboard the Hudson's Bay steamer Baychimo. With Capt. Foellmer on the Baychimo to-day were five other members of the crew of the auxiliary schooner Lady Kindersley, lost in the Arctic ice.

There was no freedom for the Kindersley's crew even when they did arrive in port, for the cook of the Baychimo contracted sickness, and the ship, and all aboard her were held in quarantine.

FLOODS DRIVE HUNDREDS FROM QUEBEC HOMES

Damage During the Past Month Placed at \$500,000

Baie St. Paul, Que., Oct. 1.—This village, which was so sorely tried early in September by floods, was again menaced yesterday and more than 100 people were obliged to leave their homes near the Gouffre River and seek shelter in some more protected spot.

The river's rise is rapid and barns and houses near the banks have been carried away or flooded beyond use.

For a considerable distance the bed of the river has been shifted and the swirling waters with their load of fallen trees are running close to the church, the presbytery, the academy and the courthouse. It is estimated that the damage caused during the past month has reached \$500,000.

With the Montmorency River reported at an unprecedented height and the Jacques Cartier and St. Anne Rivers, all of them tributaries of the St. Lawrence, reported as steadily rising, fear of further damage is held from the floods in the Quebec district.

PREMIER TO SPEAK

Vancouver, Oct. 1.—Premier Maclean is expected to address the Canadian Club here at luncheon on Monday, October 20, according to word received from Dr. J. H. King, Minister of Public Works.

PIONEER, AGED 92, TO RETRACE TRAIL IN AEROPLANE

Seattle, Oct. 1.—Erna Meeker, ninety-two, Washington and Oregon trail blazer, left here last night for Vancouver, Wash., where it is to join Lieut. Oakley Kelly, United States army aviator, as passenger in an aeroplane on a trail he came westward on in a covered wagon drawn by oxen.

Lieutenant Kelly, who received permission to make the trip from the War Department, and Mr. Meeker are to leave Vancouver to-day for Dayton, Ohio, where both men are to witness the Pulitzer international air races.

COLLECTIONS SLOW FOR WAR MEMORIAL

Limited Subscriptions Would Have Been Failure, Official States

A cordial welcome to the War Memorial Committee room, 613 Fort Street, is extended by the committee, which is not making a personal canvass, but trusts that patriotic citizens will bring their contributions to the headquarters, which will be open during all the regular office hours.

"It would be a Utopian idea," stated H. T. Raymond, chairman of the committee, to the Times to-day, "to have followed out what we were advised to do—make an appeal limited to twenty-five-cent subscriptions. The subscription book proves that." Only a few small sums have been received, and while the sum collected is still small, as compared with the objective, it is considered by the officials it would have been much smaller without the assistance of the wealthier people.

A committee meeting will be held to-morrow to endeavor to stimulate collections. Additional subscriptions are as follows: R. B. Spurgeon, J. S. Jackson, J. Jackson, C. Jackson, G. H. Brown, Silvester, Mrs. G. H. Brown, Miss Enid M. Brown, Mrs. A. H. Anderson, Mrs. F. Hendley, three anonymous, M. P. Gordon, Parker Hibben, W. C. Todd, a friend, J. C. Anthony, F. H. and Mrs. Worlock, Madge Iddes, W. T. Shannan, Alice J. Watson, Mrs. Ross, John A. Grant, W. F. Adams, J. Wallick, F. B. Robinson, Mairan Jones, Mrs. A. Colquhoun Holmes, S. Latta, and Arthur T. Hunkin.

MINISTER OF AGRICULTURE DECLARES: SAANICHTON FAIR FINE TRIBUTE TO DISTRICT

(Continued from page 1)

The collection of Indian handicraft in the main hall was commented upon, Mr. Barrow being delighted with the skill shown by a number of the articles on display. Similarly, Mr. Barrow singled out for mention the unusual vegetable collection with which H. C. Oldfield has for the third year won the Tolmie Cup.

AFTERNOON'S PROGRAMME

This afternoon the judging of the livestock in the open air ring is one of the features attracting a large audience, while the school children's sports programme is another centre of delighted interest.

ANNUAL BALL FRIDAY

On Friday evening the annual ball will be held in the Saanichton Hall, under the auspices of the North and South Saanich Agricultural Society. Music will be provided by Ozard's orchestra, and dancing will continue from 9 o'clock until 2 o'clock.

DEFENCE OUTLINES EVIDENCE PENDING AT BOAK TRIAL

(Continued from page 1)

ing some young men not yet doctors, budding doctors, Mr. Maclean said. Dr. Duck and Dr. Boak were each accompanied by two of these young men on the way home.

"It seems quite obvious that Dr. Duck left first, and Dr. Boak some time later," said counsel. "That was the order in which the two cars left, and continued until they arrived at 'Saanichton.' From that point the order was changed and Dr. Boak led. At Royal Oak Dr. Boak dropped behind for some reason or other, and Dr. Duck came along."

"The suggestion that the two men were racing is purely fantasy and nothing else," he said. "They might not have been losing any time, but did not need to be racing to do that."

Dr. Boak looked at his speedometer at one part of the route, and the car was going at twenty miles an hour. This was about 500 yards north of the scene of the accident.

The accident scene was on a comparatively straight stretch of the road with a grade sloping to the south. Mr. Maclean proceeded. Here it was that Dr. Boak attempted to pass Dr. Duck. He came up behind, rang or blew his horn in the usual way. Dr. Duck did not appear to have heard, as he was traveling in the centre of the road. Dr. Boak was forced to turn out into the dirt road.

DESCRIPTS ACCIDENT
The dirt road is still a portion of the highway, and he had a perfect right to make use of it. The paved road at this point is only eighteen feet wide, and that is pretty narrow. Dr. Boak was just about to turn back to the paved road when he got a glimpse of something in front of him which he took to be a shadow or something of that kind. It is a fair inference that this shadow was that of the bodies of the two men then lying dead.

He swerved in front of Dr. Duck and put on his accelerator so that his car and that of Dr. Duck would not collide, continued counsel. His lights for a moment were off the road and he swung them back again. The motor crossed the road again and went over the bank as the sole of his foot was caught in the accelerator, and the speed of the car with the gas pumping right into the engine increased.

The Boak car landed up at the railway embankment, but not in the position that the Crown suggests, for Mr. Alderson said that it was pulled up the bank two or three feet by the wrecking crew.

"Dr. Duck's car turned out to the right and came to rest in a very short distance. 'I am going to submit as far as Dr. Duck is concerned that there could have been no very great speed as there are no marks on the road as would be the case. The Crown may try to say there were marks from the Duck car but we submit there were not. Dr. Duck was going at a moderate rate of speed,' continued Mr. Maclean.

Dr. Duck and his party got out of their car and started to follow up the path of the Boak car. Dr. Boak started up from his car towards the railway crossing, but he did not get that far as he heard Dr. Duck coming through the bushes. All then congratulated themselves on the fact of their marvelous escape. When the jury saw the scene they would agree it was a marvelous escape, commented counsel.

The entire party was then some little time at the Boak car and then, for the first time, went to the path of the Duck car up on the road. After that Dr. Boak went to get the wrecking car.

QUESTION OF TIME

"With regard to time the fairest evidence we can get in regard to the arrival on the railway embankment is somewhere before ten o'clock. It may have been ten minutes more or less, either way," counsel went on.

Dr. Boak looked at his watch at 10:05 p.m. but his watch was ten minutes fast. Sergeant Rankin, Mr. Maclean remarked was wrong when he said that Dr. Duck told him it happened about ten o'clock.

The suggestion of the Crown is that they knew the men lay dead on

NEW HOSPITAL PLANS

Nanaimo, Oct. 1.—At a joint meeting of the Nanaimo Hospital Association, the board of directors and the building committee the plans of A. Ernest Henderson of Vancouver were endorsed by the meeting. The plans embrace the construction of a seventy-five-bed hospital, with the intention of tearing down the oldest portion of the present building. The plans, as submitted, had been previously endorsed by the local members of the B.C. Medical Association, and all plans were endorsed, with the emphasis that they be completed at an early hour, and building operations commence forthwith.

the roadside and disregarded this in a brutal and untoward manner. It is for you to say if that is true or not," observed counsel.

To continue, somewhere around 10:20 p.m. Mr. Maclean came out in the service car. He met Dr. Boak at the railway crossing, went to look at the Boak car and later was taken to the Duck car. This was about 10:25 p.m. In turning the service car the light fell on the bodies unseen by any of the party until that time. "So that is how it happened. Dr. Boak goes right over to the bodies and makes an examination, and I submit Dr. Boak was the first to make an examination of those bodies," Mrs. Bingham saw a man with glasses bending over the bodies, and that was Dr. Boak, Dr. Boak. Later Mr. Proffitt arrived from the north, this at 10:25 p.m. and he made an examination," remarked Mr. Maclean.

"However Dr. Boak examined the bodies first and what does he do? He goes right off to the Service house to get an ambulance and to summon the police? and that accounts for his second visit to the telephone. It was the return of Dr. Boak from the second trip to the Service house that Mr. Proffitt observed as the arrival of a party of doctors."

"A large number of people gathered, articles were shifted here and there and all about the place. Sergeant Rankin was the first policeman to arrive at the scene. Dr. Boak stayed right there and gave his account to Rankin. Later he talked to him further and was told not, and then only did he leave the scene."

BLOOD ON CAR

"They say that upon both doors is evidence that the Boak car killed these men, but there is this that will appear in evidence in regard to blood—Dr. Boak after that last examination of the bodies—had blood on his hands. In handling the doors and in getting in or out of his car after that he may have smeared some blood on the car," observed counsel.

Then Mr. Alderson in working around that night might have cut his hand and may have added to the blood traces around there. Mr. Maclean said he had witnesses to show that they examined the Boak car that night and that there was nothing suspicious about it. In fact the Crown had shown by Sergeant Rankin that that was so, for he examined the car in a careful and intelligent manner by the light of a powerful torch and found nothing. This, remember, was right after the accident and long before anything could have been changed or tampered with. He would corroborate that testimony by the evidence of Mr. Davis, who would tell the court that he saw that torchlight examination, who saw the light played on the sun visor and observed nothing. "Again, what a most astounding thing it is that the doors were in possession of the man Dempster for two days, and out of police control. Then they were circulated around, and at the very examination and tests for blood the accused was not even seen the doors until they came into court," Mr. Maclean remarked.

"I say absolutely Dr. Boak did not kill these men and the Crown has to show beyond all peradventure that he did. I say further, and this is the second branch of my case, that if by any chance he did that it was a pure accident. I say again that these bodies were not found where the Crown says they were killed, but sixty feet away. If they had been struck by the Boak car, they would never come out of the car, but the place they were," concluded Mr. Maclean.

EVIDENCE CALLED

The defence proceeded to call evidence. Robert John Moffat, took the stand to tell of visibility tests made with Dr. Duck and a man named Nuttall at Hamletley, Lakeside, after dark. He stood on the road. The Duck car passed at a distance of a mile, and he could not see even the number plate on the front of the car. On cross-examination witness said the headlights were on, and admitted the night was overcast.

Harold Nuttall, repeated the evidence given by the first witness. He stood on the road in turn and saw nothing. A model of the Boak car, scaled in part to one inch to the foot, was entered by William McRae Blair, civil engineer. Mr. Blair after telling of the model, said he went to the Davis garage, sat in the Boak car. The sole of his foot caught in the accelerator, holding fast under a rest near the accelerator peddle. Witness added that bodies struck straight on by the bonnet of the car would drop underneath and be run over. Struck at a glancing blow to the side they would be pushed aside, distance depending on speed and other factors. Witness gave it as his opinion that if the sun visor had ripped open a man's head it would have been badly bent. It was made of steel with a canvas covering.

Mr. Jackson protested at examination on what he called hypothesis. Mr. Maclean retorted that he had a right to imagine anything he liked and examine the witness on that, he was not pretending to deal with the facts, but only with causes and results in suppositional cases. Witness said he could not conceive of bodies being flung a distance of sixty feet by an impact of the nature suggested.

Mr. Jackson: You did succeed in getting your foot caught in the accelerator?

Witness: Yes.

Mr. Jackson: I say to you that I tried my best to get my foot caught there, and could not.

Witness replied that he had been successful, the sole of his foot caught.

Mr. Jackson suggested that the motor car was the greatest refinement of modern engineering. Witness

To-morrow—Mallek's Most Important Display of WOMEN'S AND MISSES'

New Fall Apparel

We are SPECIALISTS in Women's and Misses' ready-to-wear apparel. And we want you to come to-morrow and see the wide assortments of beautiful high grade new Fall Coats and Dresses we've assembled for this Advance Offering. Below are examples of the EXTRAORDINARY VALUES in

Coats, Dresses, Suits, Knit Goods and Millinery

The one October event of its kind! Apparel of unquestioned quality—Fall fashions that are not only authentic but exclusive—savings achieved by the co-operation of leading makers to help make this a master value event. Just in time for your first Fall shopping!

agreed. Was it not surprising then, continued Crown counsel, to find an expensive 1924 model had not been rendered footproof. Witness was noncommittal on the point.

CHALLENGES ACCURACY

Mr. Jackson called for a sight of witness's foot, the right one. He measured the depth of the sole leather and announced it as an exact half inch. Witness agreed to the measurement. Mr. Jackson suggested that to catch that under the pedestal would be impossible. Witness affirmed he had done so, nevertheless.

Mr. Jackson said he was prepared to debate the engineering principles involved as to evidence witness gave as to the probable path of a body struck under varying conditions. Witness intimated he was not seeking a debate. The weight of the Boak car was over 3,000 pounds, he said, in answer to another question.

Mr. Jackson: What is the horsepower?

Witness: I do not know.
Mr. Jackson: Do you, an engineer, mean to tell me you do not know the

horsepower when you gave us evidence as to speed, etc.?

The cross-examination continued at some length, Mr. Jackson pressing the point that a vehicle rounding a curve is slowed down or meets that tendency with increased force. Witness admitted it applied to railway engineering.

Mr. Jackson turned to tire marks on the road.

"Did that wheel not shimmy from side to side?"

Witness: What is shimmy?

Mr. Jackson: Well, it is a modern word, but I think it is in the dictionary now—I mean shiver or shake in its tracks.

Witness looked at the photograph in question, but declared he saw no shimming on the part of the tracks. The hearing resumed again this afternoon.

TOO LATE TO CLASSIFY

STUDEBAKER car, 8-cyl., 1928, in good condition, newly painted, good cord tires, new radiator and battery, electric signal, a bargain. Phone 1123 and 6910P. 2766-2-10

NANAIMO WINS FOOTBALL GAME

Northfield Aggregation De-
feated Sunday by Eight
Goals to Nil

Special to The Times

Nanaimo, B.C., Oct. 1.—The Nanaimo city football team easily defeated the Northfield aggregation on the Central Sports Grounds here Sunday afternoon by eight goals to nothing. The city had its own way at all stages of the game, and could have easily increased the score if necessary. They played a very excellent brand of ball. Northfield on the other hand did not play their usual game, and lack the dash that is usually seen in their forward line.

The local Veterans' journeyed to Cumberland and lost two points to the home team. Cumberland United, by five goals to one. The game was harder contested than the score would indicate, and caused some surprise to the spectators. The Veterans had at least forty-five per cent of the play, but were without the breaks of the game, while their opponents seemed to have all the luck.

The prizes were distributed as follows:

Pointers, puppy dogs—1. Rev. Christmas' Anthony Pride; 2. R. Jones' Cowichan Sport.

O.E. sheep dogs, open bitches—G. Bennett's Molly.

Pomeranians, open bitches—H. Hickling's Lindum Bit-o-Black.

Husky, open dogs—G. Kennett's Wolf.

Springer spaniel, open dog—R. Ormand's Chummy.

Open bitches—J. Gavin's Betty.

White haired fox terriers—Puppy bitches—1. R. Mercer's Templehill Maisie; 2. R. Horman's Watkin Beauty.

Puppy dog—1. J. Murray's Little Tich; 2. W. Willgren's Wildfire.

Open dog—H. Kneen's Kerby Stormer.

Airedale, puppy dogs—Mr. Hamilton's Jiggs.

Cheapeake Bays, puppy dogs—1. Mr. Wheeler's Pit-o-Pat; 2. Mr. Wheeler's Barney; 3. Mr. Wheeler's Ike.

Whippets, open bitches—J. Clarke's Nellie.

Collies, puppy dogs—Glen Griffith's Ginger.

Gordon setters, open dog—Mrs. Beaumont's Duke.

Open bitch—C. Willgren's Mack.

Open dog—R. Smith's Murphy.

Open bitches—C. Thompson's Bluebird.

Puppy sweepstakes—1. Mack; 2. Little Tich; 3. Pit-o-Pat.

Open sweepstakes—1. Lady Gordon, Lantzville; 2. Lindum Bit-o-Black; 3. Lady Kelly.

Best sporting dog in show—Lady Gordon, Lantzville.

Best non-sporting dog—Lindum Bit-o-Black.

Best terrier—Kerby Stormer.

BEDTIME STORY

Uncle Wiggily and the Tickle Brush

Copyright, 1924, by McClure News-
paper Syndicate

(By Howard R. Garis)

"Ting-a-ling!" rang the telephone in Uncle Wiggily's bungalow one morning. And when the rabbit gentleman answered he heard Mrs. Twistytail, the lady pig, talking at the other end of the wire.

"Oh, can you come over to-day, Nurse Jane?" squealed the lady pig. "We're going to have a picnic in the woods and we want you to be with us."

This isn't Nurse Jane—this is Uncle Wiggily, spoke the bunny gentleman into the telephone. "But I'll tell Miss Fussy Wuxxy about your picnic. It is kind of you to ask her to go."

"Oh, but I must go," cried Nurse Jane. "This is my dusting day, you know, and I haven't half finished dusting the parlor."

"Oh, never mind the dusting," said Uncle Wiggily. "I'll do that for you."

"Thank you very much," said Mrs. Twistytail. "I'll be there at two o'clock."

"All right," said Uncle Wiggily. "I'll be there at two o'clock."

"Oh, now—er—I meant to, but I forgot!" stammered the bunny gentleman. "I'll go dust it right away!"

"Oh, Wiggily, I am so disappointed! I am angry at you!" said Nurse Jane. "I shall not give you any buttered parsnips for supper, as I intended. Oh, how sad I am—and angry."

"Uncle Wiggily was sorry he had forgotten to dust the piano. He took the feather brush and, hopping into the room, began to clean the music maker. The brush hit against his pink nose and tickled it so that he had to laugh."

"Ha! Ha!" chuckled the bunny. "This is a tickle brush as well as a dusting brush. It tickles me and makes me laugh!" Again he brushed his pink nose with the feathers and laughed. Then he thought of something. Skipping out into the kitchen he held the tickle brush under Nurse Jane's nose.

"The feathers tickled the muskrat lady housekeeper."

"Ha! Ha!" she laughed, and as Uncle Wiggily brushed her again, tickling her, she laughed. "Ho! Ho!"

"Now you aren't angry at me, for I have dusted the piano," said Mr. Longears. "You can't be angry when you laugh, Nurse Jane! Hurrah for the tickle brush!" and he tickled her once more.

Again Nurse Jane laughed and then, of course, she wasn't angry and she gave Uncle Wiggily some buttered parsnips for his supper and they were both happy.

And if bluebell flowers will ring a jolly tune to call the goldfish to school, I'll tell you next about Uncle Wiggily mailing a letter.

There is no need to hurry in dusting the piano. I'll wait a bit."

And while he waited, meanwhile twinkling his pink nose, along hop-

ped Uncle Butter, the goat gentleman.

"Let's play a game of Scotch checkers," bleated Uncle Butter.

"All right," said Uncle Wiggily. So he and the goat played Scotch checkers. They played two games and they played three games, and many more games until it was evening before they finished.

Up jumped Uncle Butter to "trot home." Up jumped Uncle Wiggily to dust the piano, but it was too late. There was Nurse Jane, back from the picnic.

"Wiggily, did you dust the piano?" she asked.

"Oh, er—now—er—I meant to, but I forgot!" stammered the bunny gentleman. "I'll go dust it right away!"

"Oh, Wiggily, I am so disappointed! I am angry at you!" said Nurse Jane. "I shall not give you any buttered parsnips for supper, as I intended. Oh, how sad I am—and angry."

"Uncle Wiggily was sorry he had forgotten to dust the piano. He took the feather brush and, hopping into the room, began to clean the music maker. The brush hit against his pink nose and tickled it so that he had to laugh."

"Ha! Ha!" chuckled the bunny. "This is a tickle brush as well as a dusting brush. It tickles me and makes me laugh!" Again he brushed his pink nose with the feathers and laughed. Then he thought of something. Skipping out into the kitchen he held the tickle brush under Nurse Jane's nose.

TO HAVE DISPLAY AT POTATO FAIR

Special to The Times

Metchosin, Oct. 1.—The board of directors of the Metchosin Farmers' Institute met last night at the home of Director A. E. Wale, Langford. The usual quarterly business received attention, which included consider-

ation of reports and financial statements and accounts.

It is again the intention this year of the directors to enter a district display in the Provincial Potato Fair, to be held in Vancouver, November 27 to 29 inclusive, and details of proposed exhibit were discussed. Mr. Whitney-Griffiths agreed to take charge of the exhibit, the other directors promising their assistance.

In response to a request from Rocky Point members, a meeting will be arranged to take place in that district during the next month, with J. R. Terry, chief poultry instructor, and Mrs. Todd of Victoria, as speakers;

the date of which will be set as soon as possible.

The date of the annual meeting was set by the directors for Tuesday, December 9, at Metchosin Hall.

It was also decided to hold a Guy Fawkes masquerade dance in the Metchosin Hall on Wednesday, November 5, the arrangements of which are in the hands of H. G. Pierce, who will appoint his own committee.

Other matters of importance discussed at this meeting included farm land taxation, and the water question, the president and first vice-president to make certain enquiries regarding these matters, with a view to bringing up resolutions concerning the same at the forthcoming meeting of Vancouver Island District Farmers' Institutes.

Entrance to the workings was gained through an opening made by the city into an old incline at the southerly side of the Hilbert Block on Nicol Street, and it was found that a considerable body of water was lying in the workings up to approximately twenty feet above the tide level. This water made it impossible for us to carry our investigations into the old Douglas adit, where a cave-in has caused a blockage of the outlet.

"In my opinion it will be necessary to get rid of the water lying in these workings. There are several ways that might be suggested to do this, but I believe that the best way is to pump it out, and as the power is easily available, a small electrical pump would meet the purpose."

I would also suggest that the old Douglas adit be opened up at once, starting at the mouth near Mrs. Hardy's store, and cleared to give

proper drainage for all water coming from the old workings. The tunnel could then be timbered where necessary. In my opinion the opening of the old Douglas adit is the only real remedy for this trouble."

Special to The Times

Ladysmith, Sept. 26.—James Toubey, superintendent of the Granby Consolidated Mining & Smelting Company at Cassidy, had quite an unpleasant experience at Cowichan Lake last week. Mr. Toubey, in company with Mr. Fowler of the Hotel Vancouver, were fishing and the boat in which they were in capsized. Mr. Fowler being unable to swing clinging to the overturned boat, and Mr. Toubey swam for the shore, and was nearly exhausted when he arrived there. Help came and they are none the worse for their experience.

The wedding of Stove Mrs. of Ladysmith and Miss Theresa Krupa of Czechoslovakia was celebrated at St. Mary's Church on Saturday last. Rev. Father McLennan performing the ceremony. Miss Krupa was attended by Miss Mary Mahaloch and Mrs. S. Miller of Extension and Miss Annie Mrs. of Ladysmith. The groom was supported by J. Michuk and J. D. Mayovsky of Ladysmith and S. Miller of Extension.

A. H. Newcombe returned on Monday from a week-end spent in Victoria.

The benefit whist drive held last night in the L.O.O.F. hall was a great success, over \$123 not being the proceeds. The prize winners were: Ladies, first, Miss Rota Johnson; second, the Misses Keri, Miss B. Sanderson and Mrs. Wm. Hoyer; and open drawing, Miss Kerr Crow. The lucky number, gentlemen, first, John Sharpe; second, Wilson, Jr. The drawing for a cushion, donated by Mayer, Walker & Co., was won by D. Goulay Jr.

WAGE AGREEMENT

Special to The Times

Nanaimo, Sept. 26.—As all attempts to come to an understanding between the employees and management of the Western Fuel Company here have failed in connection with the drawing up of the new wage agreement, a board of conciliation has been established by the Minister of Labor. The agreement under which the mines have been operating expires to-morrow, and the present board has been set up on the application of the men to draw up a new contract.

Following the bazaar a social evening was held by Court Progress, for-esters. Mrs. J. Weeks (nee Miss Copley) was presented with a wedding present by the members of the lodge, and a shower was tendered to Miss Mabel Murray, whose wedding takes place in the near future.

WILL HAVE TO DRAIN WORKINGS BENEATH CITY

Unusual Situation is Reported to Nanaimo City Council

Nanaimo, September 26.—At the meeting of the City Council last evening a report on the floodings near the fire hall was received.

W. H. Wall submitted the following report on the old mine workings on Crace and Nicol Streets, the report being dealt with in committee following the regular meeting:

"Complying with your instructions, I beg to report that I have this day made an examination of the old mine workings in the vicinity of Crace and Nicol Streets, as far as conditions would permit."

"Entrance to the workings was gained through an opening made by the city into an old incline at the southerly side of the Hilbert Block on Nicol Street, and it was found that a considerable body of water was lying in the workings up to approximately twenty feet above the tide level. This water made it impossible for us to carry our investigations into the old Douglas adit, where a cave-in has caused a blockage of the outlet."

"In my opinion it will be necessary to get rid of the water lying in these workings. There are several ways that might be suggested to do this, but I believe that the best way is to pump it out, and as the power is easily available, a small electrical pump would meet the purpose."

FINDS MORAL TONE OF U.S. IMPROVING

Christianity is Strong and
More Progress Being Made,
Methodist Bishop Finds

Manila, Oct. 1.—Bishop John W. Robinson of the Methodist Episcopal Church, with headquarters in Bombay, India, thinks the moral tone of the United States is improving and that it is becoming a better place in which to live. He is returning to India after spending several months in the United States. He has lived more than thirty years in the Far East.

"Greater charities are being announced," said the bishop, "mankind is more thoughtful of his neighbor, and more hospitals are being erected to care for the sick, making the United States a better place to live in. I visited all of the larger cities of the country, north, south, east and west and saw no drunken men. Christianity is strong throughout the country, greater churches are being built, and more progress is being made."

"Is your wife enjoying her holiday?"

"No, she keeps worrying whether the canary will know her when she gets home."

CHANGING THE TUNE

SOME DAYS AGO THE Montreal Gazette took a melancholy editorial view of conditions in this country and quoted statistics in respect of emigration and immigration which were intended to show that Canada was standing still and that efforts to settle our expansive agricultural areas had not brought anticipated results.

Two or three days afterwards The Gazette had a change of heart and openly confessed that its "rather lugubrious article" had not drawn attention to the other side of the medal. It discovered that its reference to the outgoing and incoming population may have created a wrong impression and hastens to assure its readers that a few figures reveal a "much more cheerful picture." It now says in part:

In the census decade, 1911-21, population grew in numbers only 18 per cent. In the same period the foreign trade of the Dominion rose from \$12,800,000 to \$2,499,000,000 or more than three-fold, and while it is true that the year 1920-21 was one of extraordinary business activity with prices of commodities high beyond precedent, and may in consequence be considered exceptional, we find the foreign trade of Canada in the year ended June 30, 1924, to have been \$2,499,000,000. In foreign commerce the Canadian people were doing more than two-and-a-half times as much business in 1924 as in 1911, and the remarkable fact is that this immensely increased commerce was carried on by substantially the same number of people.

From this point the Montreal journal goes on to argue that a people who can invest two billion dollars in the funded debt of their country are not poverty stricken. And it should be remembered that when Canadians bought \$2,000,000,000 worth of Victory Bonds they did it without a heavy drain upon their savings deposits. In other words, therefore, if population does not increase in the desired degree, there is some satisfaction in the knowledge that the people we have are prospering as a community.

If The Montreal Gazette and other Conservative newspapers would show "the other side of the medal" a little oftener they would be serving national interests. At present their melancholy wails furnish talking points to agitators on the other side of the Atlantic who are ready to work overtime to prevent the development of the Empire. Meanwhile The Gazette is obviously nearing the conclusion that the country has not gone to the bow-wows under the King Government's freer trade policy after all.

SWELL THE FUND

SUBSCRIPTIONS FOR VICTORIA'S war memorial are not coming in as quickly or in such large volume as the willing workers would like. During the several days which have elapsed since the fund was opened and the public invited to subscribe only a comparatively small amount has been donated. It should not be so. A very trifling sum from even the adult population of the district would put the project over in quick time. Let there be a general resolve to do the needful without delay.

COUNTING THE RETURNS

MANY ONTARIO TOWNS are beginning to realize what the tourist business means to Canada and how much more the country might benefit by bidding energetically for a larger share of it. The Daily Ontario draws attention to the figures which have just been issued by the National Parks Department for 1923. These contain the following estimate of money left in the country by tourists and give the returns by provinces:

British Columbia	\$25,000,000
Alberta	10,000,000
Saskatchewan and Manitoba	10,000,000
Ontario	20,000,000
Quebec	20,000,000
Maritime Provinces	20,000,000
Total	\$135,000,000

Our eastern contemporary says "It may seem strange to learn that British Columbia leads in tourist trade," but contends that the answer is found in the fact that the "Pacific Province" early recognized the value of publicity in attracting tourists." It goes on to say that

Ontario can learn something from British Columbia and suggests that there is no reason why its \$30,000,000 total for 1923 should not be doubled.

There is no reason why Canada as a whole should not double its tourist business next year. British Columbia should do better still. It might even be suggested that a Department of the public service actively devoted to this source of revenue, co-ordinating the publicity of the whole Province with an expert in charge, would justify itself and soon warrant the creation of a portfolio of Tourist Travel.

NO SINECURE

SOME ONTARIO NEWS-papers are employing novel arguments in their discussions of the prospects of the forthcoming liquor vote and not a few are already speculating upon the success or failure of the Government which may have to go into the business of selling intoxicating liquors.

The Mail and Empire maintains its stout partisanship and unblinking declares that the chances for Government control are far better than they were two years ago because there is a Conservative Government in power in which the people have confidence. And it goes on to say that "the thing necessary for any policy of liquor traffic regulation is a Government that has the will and the wit to enforce the law."

Apart from the amusing implication that the "will and the wit" to enforce the law is the monopoly of the Conservatives of this country. The Mail and Empire is following a false scent if it imagines that any Government can go into the liquor business and not get into trouble. If Premier Ferguson and his colleagues are instructed by the people of Ontario to shelve the O.T.A. for a measure of control similar to that which exists in British Columbia and other provinces, new difficulties will beset their path before the Act is very old.

We venture to assert that there is not a Government in Canada that would not crawl from under its obligation to its liquor law if it could do so. Yet neither would seriously argue that its particular political stripe has helped it to surmount its difficulties in this connection so far. The Canadian people are law-abiding and if Ontario should go "wet," its Government, whether Conservative or Liberal, will measure success in liquor administration by the volume of public sentiment which supports the law.

On an original capital of \$200 a Toronto racing publication business has made a profit of \$30,000. What better proof does the average man require that thousands of people in this country continue to try to beat an unbeatable game?

Now that the cooler days are coming on how would it be if the motorists called in all the bathing girls which decorate their windshields by the thousands? Possibly a few accidents might be avoided if the driver's vision were not so obstructed.

It is quite safe for the Labor Party of any country to withhold its support to Communist parliamentary candidates. These gentlemen do not believe in Parliament because it represents the will of the people.

The mayor of Buffalo says that six carloads of beer arrive in that city daily from Canada. Such definite knowledge should insure prompt seizure by United States officials; but if the statement is true it says very little for co-operation by Canada in the prevention of smuggling.

IN SOUTHERN ALBERTA

From The Lettbridge Herald
We will have our good and bad years undoubtedly, in the future as we have had them in the past, but balanced farming and putting by for the possible bad years some of the money made in the good years will assuredly put agriculture on a more permanent and successful basis.

HARD TO SUIT

From The Boston Transcript
There are fewer paupers in American almshouses than at any time within the past twenty years. But that will not affect the outpourings of those cheerful souls who proclaim that the struggle for existence constantly grows more bitter.

TREAT HIM GENEROUSLY

From The St. John Globe
If it be true that Hon. W. B. Fielding is without means sufficient to provide for his necessities there will be general approval of parliamentary provision, either for an annuity or a lump sum grant. Hon. Mr. Fielding has given his life to the public and despite political differences he enjoys the respect, the good-will and the esteem of all. Any public man who serves the country as well and as faithfully as has Hon. Mr. Fielding deserves to be generously treated if the evening of life finds him without sufficient means to meet life's requirements.

DR. FRANK CRANE

ON

"WHITE SPATS"

IN THE UNITED STATES white spats

are a sign of the effete; it seems to be different in London.

"You have no idea what a big trade the second-hand dealer holds."

said Mr. Jacob H. Hopkins, Judge of the Superior Court of Chicago, in Paris the other day, "tending out top hats and dress suits and above all, white spats, to the lawyers who came over from the big and little towns of America, Eastern and Western. It took me a terrible time to get spats on and looking right, and as though it were not a dress rehearsal for some play with a Piccadilly background. There is, as I know, only one man in Chicago who wears spats as they should be worn and that man is ex-Senator Hamilton Lewis."

"The peddlers were very enterprising. They had a great poster up in the Savoy Hotel with suggestions as to how one should dress for members of the American Bar Association. They cleaned up over ten dollars for less than a couple of days' hiring on each outfit."

He added that it would have been a priceless sight to have seen some of our attorney friends waiting for Chicago's main boulevard in spats, a topper, and the usual paraphernalia of the requested morning dress.

London seems to be strong on form, while America is not so insistent. The Judge said that he had a wonderful time in London, but it was a strain on one to have to change one's clothes three times a day.

If there is any one thing that the West is ready to think characteristic of the East, and of the dup of the East, it is white spats or spats of any kind. It will be a long time before the custom is much in favor in America.

However, it is not so absurd as the custom of wearing the tall hat, which is in recent years in Canada, a parade from the President of the United States down. If a man is to be clothed in some peculiar garment, it is better that he belong to the leisure class. It is quite as reasonable for him to wear spats as to wear the plug hat.

KNOW YOUR COUNTRY

HYDRO-ELECTRIC POWER

Q.—The development of hydro-electric power in recent years in Canada has been remarkable. To what extent?

A.—Over 90 per cent. of the prime motive power of Canada's central electric station industry is hydro power.

In January 1, 1924, there were nearly 1,000 central electric stations in the Dominion. The further the installation of hydro power as on February 1, 1924, was 2,227,414, out of an estimated available 18,255,316 horse power.

CANADIAN NATIONAL RAILWAYS

MILEAGE

Q.—What is the mileage of the Canadian National Railways?

A.—The mileage of the Canadian National Railways (including the lines of the Grand Trunk Pacific), is 11,132; adding the Grand Trunk system makes it 22,436—one of the greatest public ownership systems in the world.

WORDS OF WISE MEN

Those having lamps should pass them on to others.

Put not off till to-morrow, for to-morrow never comes to completion.

One means of being sure against fortune is not to try her too often.

He is a fool who leaves certainties for uncertainties.

In hospitality, the will is the chief thing.

Give every man time ear, but few false voices.

Take each man's counsel, but reserve thy judgment.

—Shakespeare.

Sweet is the remembrance of troubles when you are in safety.

Even honey in excess becomes gall.

Wish rather to be well spoken of than to be rich.

Hold him alone truly fortunate who has ended his life in happy well-being.

It is better to be the best of a bad family than to be well-born and the worst of one's race.

WHO'S WHO IN HISTORY TO-DAY

WEDNESDAY, OCTOBER 1

HENRY III

King of England, was born on Oct. 1, 1207. He succeeded to the title at the age of nine, but affairs were conducted under a regency until he was twenty, when he assumed control. His misgovernment caused a rising of the barons who compelled him to accept the Provisions of Oxford, embodying many reforms. When the king later repudiated the provisions, he was defeated in battle by the barons and kept a virtual prisoner for a year.

PIERRE CORNEILLE

celebrated French dramatist, died on Sept. 20, 1684. He is ranked with Descartes as the first to free French language and thought from restrictions due to Greek and Latin influences. His plays include "Le Cid," "Andronicus," "Theodora" and "Polyeucte," regarded as his greatest work.

JAMES LAWRENCE

American naval officer, was born on Oct. 1, 1781. In the War of 1812 he commanded the Hornet and captured the British ship Peacock. Later, as commander of the Chesapeake in an engagement with the Shannon, he was mortally wounded, and was carried below.

SIR WILLIAM HARCOURT

English statesman, died on Oct. 1, 1905. He was a member of the House of Commons for nearly forty years, and for four years was leader of the Liberal Party there. He served as Solicitor-General, Home Secretary, and Chancellor of the Exchequer.

Other People's Views

Letters addressed to the Editor and intended for publication must be typed and legibly written. The longer an article the shorter the chance of insertion. All communications must be sent to the Editor, and the Editor is not responsible for the return of articles in the event of their not being published. The Editor is not responsible for the return of articles in the event of their not being published.

"TOO MUCH ZEAL"

To the Editor—Your editorial appearing in issue dated September 30, re use of firearms by Government officials, under heading "Too Much Zeal," is pregnant with wise observations. For instance, "mistakes are easily made. But common sense and average intelligence should prevent criticism without a thorough knowledge of facts."

GEORGE C. NORRIS.

Victoria, B.C., Oct. 1, 1924.

A MEMORIAL

To the Editor—We all acknowledge that Victoria has been remiss in not building a memorial to the men and officers who went from this city to give their lives in the Great War.

We are about to make that good. But there are many of us who would like to have the satisfaction of doing something at the same time for those veterans who live in our midst in constant need.

Could not a good proportion of the fund now being raised be presented to the Red Cross Workshop for instance, as a Christmas present to the living heroes in our midst, who, no doubt of it, would find some such "memorial" a veritable god-send.

We do not want to pander to our own pride in having a "better cenotaph than anyone else's" and these men in our own city do appreciate practical good will and the season for "presents" approaches.

EDWARD EVANS.

The Anchorage, Vancouver Avenue, Oak Bay, Sept. 30, 1924.

THE CIRCULAR

To the Editor—There is no mystery concerning the "somebody" who is responsible for circulating a handbill in connection with the memorial campaign. It was my work. I advised the war memorial committee before the bills were printed. Your reference to "foolish and misleading propaganda" is quite correct. It may be foolish to fight for a principle, but the truth is not misleading.

For your information, and M.A.W.'s also, I quote a paragraph from the official report of the war memorial committee, published in The Times on Friday, August 15, which reads as follows: "His Honor the Lieutenant-Governor has most generously offered to head this public movement by undertaking the cost of the statue itself and the bronze work, so that the erection of the memorial according to above-mentioned design may be ensured without delay. The pedestal is to be paid for by public subscription."

The page advertisement in The Times of Saturday, September 27, contains the following: "Lieutenant-Governor Nichol has offered to pay for the bronze work about \$5,000."

M.A.W. in his letter published in yesterday's issue, says: "It is my understanding that His Honor did not give to the figure alone, but to the memorial; so the contributors do not give to the base alone, but to the memorial."

Why not conduct the campaign honestly and truthfully? Is it fitting that Victoria's memorial should be erected upon a foundation of lies?

I am not trying to force my views upon the citizens. I appealed to a public meeting for the purpose of obtaining an expression of opinion. If public sentiment is opposed to the principle I am advocating I will drop the matter.

EYESIGHT

DO you build up your collection of valuable books but neglect your most valuable eyesight? Your knowledge and vision-pleasure will come haltingly if your eyes are impaired and unaided.

INTERVIEWS MOTHER OF JANET SMITH

London, Oct. 1.—When a Province representative visited the London home of Janet Smith, the nursemaid who was mysteriously shot dead in Vancouver, the mother was too overcome to speak of the tragedy, but the brother said with conviction: "My sister was murdered. We know her nature and she would not touch fire-arms."

"As soon as news of the first inquest reached us, we wrote Vancouver and said the verdict of accidental death, was wrong and that there must have been foul play. We have no suspicion as to who may be guilty."

"Janet wrote home every week and there was never a hint of any trouble in her letters, but we know that she would not have written anything that would distress mother, for they were devoted to each other."

TO MEET HEADS OF INSTITUTES

Delegation to Leave Friday; Suggest Agricultural Convention For B.C.

James Bailey of sardis, chairman of the advisory board of Farmers' Institutes and member for the Lower Fraser Valley district, will leave on Friday with C. E. Whitney Griffiths, secretary of the board and member for Vancouver Island for Prince Rupert, bound on a round of visits to Farmers' Institutes in central British Columbia.

The trip will extend into the Franciscan and Ootsa Lake country, Kamloops and points in the Salween Arm district, and on through the Cariboo district, with meetings at Quesnel, Williams Lake, Forest Grove, etc., for special gatherings of the institutes from district "D."

The two organizers will be joined by Henry Rive, Provincial Dairy Commissioner, who will accompany them to some of the centres.

PRELIMINARY MEETING

In June, 1919, the advisory board led a big party of the organizers of agricultural interests, accompanied by the Minister of Agriculture, into the districts above mentioned for the purpose of organizing Farmers' Institutes, which were then started in a small way. Following a visit made again by the secretary of the board in October last, many new institutes were incorporated and old ones re-organized. Proof of the value of this organization work is found in the returns of membership for 1923, which shows them to be over 6,000.

As a result of the wide publicity given these trips other parties of business men followed and closer touch with this immense territory and a true idea of its future productive-ness was secured. Very large developments have taken place throughout these districts, with considerable settlement in favored areas.

The exhibit of potatoes and general products last Fall in Victoria and the New Westminster Fair indicated some of the possibilities in the future for this great territory. It is hoped by the coming trip to bring about permanent organization in Smithers, of what is known as district "B," as the institutes have about doubled in number and strength during the past year. Also in the next section (Nechaco and Prince George) satisfactory increases are reported, and stops will be made to address meetings.

Final returns for last year show that the Farmers' Institutes have reached their highest membership since the war, and the steady growth, in spite of serious and unusually bad seasons experienced in the agricultural industry, is an assurance that this form of organization is giving satisfaction and is permanent.

SEEK CONVENTION

The advisory board is in receipt of demands for the holding of a general agricultural convention for the Province. The matter has been under consideration by the board for some time, and if it is possible to overcome the financial difficulty and secure actual Provincial-wide attendance, agricultural interests may again be seen in annual convention as they used to prior to 1919.

DISTRICT MEETINGS

It has become the practice to hold district conventions just prior to the session of the Provincial Legislature, or early during the session, and good results have followed the publicity given to farming problems as members of the Legislature are usually invited to these gatherings and thus their memory is fresh on the opening of the House; also they are more cognizant of the particular agricultural problems which always come up for discussion.

The advisory board are scheduled to meet on Nov. 10, 11, and 12, and annual meetings of Farmers' Institutes are now being planned in all districts in the Province.

Full conventions are being arranged for Kamloops, Salmon Arm, Kamloops district, Prince George, Cranbrook and probably at Victoria.

No date was set for the adjourned meeting for the island, but the usual Fall meeting may be held during November, depending on the wishes of the institutes and the importance of the matters before them. It is the aim of the board to encourage and assist organization along these lines, and bring farmers to a realization of the value of such organization in overcoming the problems of production and the marketing of products.

Active work is also being done to ensure the success of the forthcoming Provincial Potato Fair, and every encouragement and assistance is offered by the Department of Agriculture to both individuals and collective to exhibit their product.

Dr. Clem Davies to Address Radio Club

Will Give Talk to Local Radio Fans on "Radio and Religion" on Friday Evening

An interesting lecture will be delivered on Friday evening when Dr. Clem Davies of the Victoria City Temple will address the Victoria Radio Club on "Radio and Religion" at its monthly meeting which will be held in the New Thought Temple, Pandora Avenue, at 8 o'clock.

This is the first meeting that the club has held in its new quarters, and Dr. Davies has consented to give the opening lecture. Dr. Davies has used the radio extensively for the broadcasting of his sermons, and he will tell the club the splendid work the radio has done towards linking up the church with the outside world.

W. H. Christie, one of the city's well-known radio fans, will demonstrate an eight-tube Ultradyne receiving set at the meeting. He has had considerable success with the Ultradyne and the fans will be very interested to see the large set in operation. Jack Frampton will also give a short address on "radio parts."

All those interested in radio are invited to attend the meeting.

A NEW DISEASE

Moscow, Oct. 1.—Professors Piroff and Kousmin of the Institute of Experimental medicine announce the discovery of a new disease which they say prevails during epidemics

of influenza, manifesting itself by severe chills, violent headaches, vomiting, nasal hemorrhages, accompanied by high temperatures. The malady, still unnamed, lasts from two to six days, and is of a communicable character but not necessarily fatal.

GETS VALUABLE PAINTING

Syracuse, Oct. 1.—A painting valued at \$1,000, entitled "The Shepherdess and the Sheep," is to become the property of a Syracuse undertaker

as the result of the recent death of Benjamin C. Frasee, 87, of Baldwinville after he had been struck by an automobile in that village. Two years ago Frasee arranged with the undertaker that upon his death, the paint-

ing, the work of Mrs. Frasee, now dead, would pay the funeral expenses.

Danville, Pa., Oct. 1.—The use of waste lubricating oil from garages for oiling the streets is being consid-

ered by the borough council. The plan was suggested as an economic measure.

Girland, Pa., Oct. 1.—After shaving himself and cutting his own hair for more than seventy years, Henry Ap-

pel, aged ninety-two, has gotten his first barber shop shave.

Appel for more than seventy-five years worked upon and supervised his farm, which he recently transferred to his son. He still does chores about the farm.

TO-MORROW'S HOROSCOPE

By Genevieve Kemble
 THURSDAY, OCTOBER 2

Generally troublesome conditions, but not entirely disastrous, are predicted from this day's astral rulings. Mars, Neptune and Venus are in unfriendly position, the former inclining to rash and impetuous conduct and ill-temper. The Neptune place warns of subtle danger or treachery and the Venus square with the Moon is an unfavorable omen for social, domestic and affectional matters. However, with Mercury sextile with Luna, and a fortunate ray from Saturn, it may be possible to turn affairs to good account and reap some benefits.

Those whose birthday it is may have a year of trying conditions, but they should refrain from worry and endeavor to reap benefits, mainly by keeping calm and under control in all affairs. A child born on this day may be disposed to worry and fret, although, with careful training, it may be clever and talented.

ART CLASSES AT NIGHT SCHOOL

Among the classes which will be included on the curriculum of the Victoria night school which opens at the High School on Thursday is that of still life drawing and painting by Miss Dora Donough of the Devo-Art Studios. These classes will be held each Monday and Thursday. Mrs. M. Grute is also conducting her class in pottery making, a new industry which is creating much interest locally.

— IN WOMAN'S DOMAIN —

CHEERS GREETED
SYNDICATE'S MOTION TO
EXCLUDE WOMEN

Anglican Ruling Refuses to Recognize Female Delegates

London, Ont., Oct. 1.—Official ruling was given in the General Synod of the Anglican Church here to-day that women are not entitled under the present constitution of the Synod to sit equally with men as delegates. Dean J. P. Lloyd, prolocutor of the Lower House was asked last night for this ruling and gave it to-day. "It is customary," he said, "when there is doubtful terminology that the point of interpretation shall pay due regard to the intention of the framers of a law. In this case it is evident that only men were contemplated when the constitution was drawn up and that women would not have been included at that time if the question had arisen. Therefore, the ruling of the House is that until such time as the General Synod enacts otherwise, women are not entitled to sit as delegates in the Lower House."

He stated that this was his own personal point of view and that the assessor had concurred in it. He assumed full responsibility for the ruling.

Very Rev. Dean Tucker, of London, then moved the first part of his resolution introduced last night asking that the necessary steps be taken by the Synod to authorize the admission of women to the Synod and saw it defeated by sixty-nine to forty-two votes. The result of the motion was received with cheers in the House.

B.C. DELEGATE QUESTIONED
 At the beginning of last evening the credential committee, in bringing in its report, stated that every credential was in order with the exception of a letter from Miss Inez Smith of Hazelton, B.C., an accredited delegate to the general synod from the diocese of Caledonia, and asked the speaker of the house, for a ruling on the matter of women sitting as delegates to the synod.

WOMEN IRRITATED
 Friends of the women's movement in Eastern circles, as well as the most radical of Anglican church adherents, showed considerable indignation at the decision of the synod.

It was argued that women have in the city and is the guest of her mother, Mrs. Kingham, Belmont Avenue.

RESOLUTION WITHDRAWN
 Dean Tucker put forth in support of his resolution for admitting women an appeal urging not only the scriptural, but also the practical and utilitarian grounds, and the reconciliation with the older traditions of the church.

The large majority of the house was in opposition to him and at the request of the house he withdrew the third paragraph of his motion to extend the scope of women's administration in the church in accordance with the resolution fifty-three of the Lambeth Conference, which would have given women the right to speak in consecrated and unconsecrated buildings.

Foremost in opposition to Dean Tucker's motion was Canon H. M. Little.

FORBIDDEN IN BIBLE
 "If the synod passes this motion," said Canon Scott, "I shall go home absolutely disgusted with the church. The Scripture says very plainly that a woman shall not teach in the church, if we are to restore the order of deaconesses she would have that authority."

"The most honorable thing a woman can do is to bear children, and when her children have grown up, to look after some one else's children. Scripture says a woman shall not speak in the church and now we are to restore her deaconess. It is out of the question."

PRINCIPAL VANCE AGAINST
 Principal W. H. Vance of Vancouver spoke against the motion, and advised the synod to go slowly with the matter. He said, admit, though that the time would doubtless come when women would have much more influence in the affairs of the church than they have now.

Canon Gould reminded the house that in 1921 it had already given sanction to deaconesses, but Canon Gould objected that it was office and not order of deaconesses that had been formed, a very different thing and one carrying much reduced privileges in the church.

In the afternoon the Bishop of New Westminster told of the bravery and heroism of Miss F. H. E. Hazell, who is in charge of a Sunday school caravan in British Columbia.

SOCIAL AND PERSONAL

Mr. Percy Shepherd has returned to Seattle after spending the past week in Victoria.

Mr. and Mrs. C. N. Gowen have removed from Wilmet Place to Wilmet Avenue, Oak Bay.

Mrs. Gaudin has taken up her residence with her daughter, Miss Kate Gaudin, at Suite 29, Alisa Mansions.

Mrs. Mellander, George Road, spent the week-end at Swichan Lake as the guest of Mr. and Mrs. Lawrence Ashburnham.

Mrs. L. D. Heaton of Vancouver is the guest of Mrs. D. J. Clarke, Devonshire House, Fort Street, for a couple of weeks.

Mrs. Primrose Wells and Miss Ursula Primrose-Wells returned to Duncan on Sunday after spending a few days in Victoria.

Mr. and Mrs. W. S. Copeland and Mr. Alec Copeland, of White Horse, Yukon, have arrived in Victoria and are guests at "Cherry Bank."

Mrs. J. H. MacCall, Judge of the Juvenile Court of Vancouver, is a visitor in the city to-day and is the guest of Dr. Helen Ryan, Battery Street.

Mr. Arthur McCallum, who has been spending the past few months in Stewart, where he has been mining interests, returned to Victoria yesterday.

Colonel McMillan of Prince Rupert, accompanied by his niece, the Misses Norma and Edith Stephens of Niagara Falls, were visitors in Victoria yesterday.

Mr. and Mrs. E. J. McFeely, of Vancouver, and the latter's sister, Mrs. Alex. McFeely of Victoria, have returned to the coast after an enjoyable holiday at Banff.

Mrs. S. D. Johnston of Prince Rupert arrived in Victoria yesterday and for a few months will be the guest of her mother, Mrs. Kingham, Belmont Avenue.

Mr. C. E. Herron of The Alaskan Weekly, Seattle, is spending a few days in Victoria as a guest at the Union Club on his return from a trip to Stewart, B.C.

Mr. Luke Humber and granddaughter, Reita Humber, accompanied by his son, Dr. F. R. Humber, arrived home from the mainland on Sunday afternoon.

Miss Annie Straith, private secretary to Hon. Dr. King, Minister of Public Works at Ottawa, has arrived in the city and is the guest of her mother, Mrs. D. Straith, Moss Street, for a few weeks.

Mr. and Mrs. John Moss, formerly of Yokohama, who for the past year and a half have been guests at "Cherry Bank," left last week for Kobe, Japan. The Misses Helen and Enola Moss are remaining in Victoria as students at St. Margaret's School.

Miss Reita Humber, 329 Henry Street, returned to her home on Sunday from Vancouver, having spent the last two weeks visiting Dr. and Mrs. F. R. Humber of Point Grey Road, and also Mr. and Mrs. W. Lachard of Hornby Street.

Miss Anne Clothier and Miss Agnes Kingham of the nursing staff of the Provincial Jubilee Hospital, who are visiting in Stewart, returned to Victoria on Sunday after a visit of six weeks in the mountain, which included climbing 12,000 feet in the mountains. They accompanied Mr. George Clothier on his tour in the Stewart district.

Mr. and Mrs. R. R. Elliott, 2519 Government Street, entertained last evening in honor of Mr. and Mrs. W. Dods, who are leaving the city shortly. The staff of the Island Market, of which Mr. Dods was manager, presented him with a leather wallet and gold Eversharp pencil. Those present were Mr. and Mrs. K. W. Dods, Mr. and Mrs. Leach, Misses M. Dods, W. Elliott and G. Elliott, Messrs L. Andrews, P. Andrews, C. Hallett and T. Fisher, T. Cooper and T. Dods. The evening was spent in music and games.

A very enjoyable evening was spent at the home of Mr. Leslie Hooper, 561 John Street, when he entertained a few of his friends at a dance. Mr. Ritchie's orchestra being in attendance. Among those present were the Misses Beasly and Ella Watson, Misses Dixon, Muriel Hemeon, Lenore Miles, Violet Brown, Betty McMillan, Margaret Otto, Ruth Hanson, Messrs. Leslie Hooper, Sidney Feldon, Bill Adams, Bill McEwan, "Barney" Burns, Johnny Minnie, Bert Taylor, Fred Hole and Jack McKenzie.

Prior to leaving for Kobe, Japan, Mr. and Mrs. John Moss entertained at a combined bridge and mah jong party at "Cherry Bank." Among those present were Colonel and Mrs. Tooley, Mr. and Mrs. Fred Brae, Mr. and Mrs. M. P. Gordon, Mr. and Mrs. Hurdell, Mr. and Mrs. Stewart-Campbell, Mr. and Mrs. H. Currie, Mr. and Mrs. Jordan, Mrs. R. B. McKinnon, Mrs. Thorne, Mrs. Cain, Mrs. Cabelly, Mrs. Parrott, Mrs. Little, Mr. and Mrs. Frank, Mr. and Mrs. Fred Pollard, Misses Livingston, Miss Aubrey, Mr. Conway Parrott, Mr. Percy Shepherd and others.

A very enjoyable dance was given last Friday evening at St. Alban's Hall by Mr. and Mrs. C. W. Brooks in honor of the twenty-first birthday of their eldest daughter, Lillian. The supper table had been prettily decorated in a color scheme of pink and mauve by Mrs. Ernest Gough. Mrs. P. Bridge assisted the hostess. With the serving of refreshments, and excellent music for the dancing was rendered by Mr. W. Sherriff. The list of invited guests was as follows: Misses Annie and Lily Baron, Sybil Manning, Nellie Cannon, Edna Ashton, Fanny and Annie Mackenzie, Joan Harrie, Anne Gough, Ethel Rhodes, Gertrude Edean, May Lindley, Kathleen Jackson, Marjory Tudor, Lillian and Dorothy Brooks, Mr. and Mrs. Albert Mayo, and Messrs. John P. Bridge, John Gough, Bernard Gough, Bert Cowell, Dave Mackenzie, S. Parker, T. Parker, Gordon Cosh, J. Weaving, J. Rainey, Kenneth and Jack Ramsdell.

CHEMINUS

An enjoyable afternoon was spent at the community tennis courts on Sunday, when the Ladysmith club members were the guests of the local club. Cheminus made a much better showing than at previous matches, winning five of the nine doubles played and tying in two. Twelve games constituted a set. Both sets of singles, however, went to the Ladysmith players, the scores being 4-3 and 5-7. A total of 132 games were played, Cheminus winning 75 and Ladysmith 57. After the match supper was served. The visitors were Messrs. A. Thomas, D. Clark, Dickson, Squire, Fagan and A. Morrison, while Cheminus was represented by Messrs. R. Jarrett, H. Brown, G. Wilton, H. Delson, C. D. Ross and H. E. Heistig.

Mrs. A. Howe is visiting at Port Alce, the guest of her daughter and son-in-law, Mr. and Mrs. A. Dunne.

Mr. T. Robinson has returned from a vacation spent in Vancouver and Bellingham.

DISTRICT MEETING
WOMEN'S INSTITUTES
HERE NEXT WEEK

To be Financed by Women For First Time; Busy Agenda

The annual conference of the Vancouver Islands District Women's Institutes will open at the Parliament Buildings Wednesday, October 2, at 9 a.m., when Mrs. Geo. Henderson, secretary of the district, will preside. Three days will be given to receiving institute reports, discussion of committee and other institute business, also election of advisory board members and district board for next year.

This is the first time the Women's Institutes have financed their conference, and the district board has the support of almost every institute, and there is every indication of a most successful conference.

Besides the routine business, Mrs. Lucas of the Spanish Health Centre will give an address on Wednesday afternoon. Victoria Women's Institute will entertain the delegates to a luncheon Wednesday afternoon.

Public Works at Ottawa, Messrs. D. Spencer, Limited, have extended an invitation to a luncheon in their tea rooms Thursday, and Lake Hill Women's Institute will entertain at the Lake Hill Community Hall Thursday evening, while Esquimalt Women's Institute have extended an invitation to the delegates to supper and an entertainment following on Friday evening.

Girls' Corner Club—The Girls' Corner Club will reopen after the holiday season on Thursday, October 2, in their old quarters, Liberal rooms, corner Government and Broughton Streets. Business women and girls are cordially invited to supper at 6:15 p.m., followed by singing by the club. Solos by Mrs. J. S. Patterson and a short address by Mrs. Field. The meeting will close before 8 o'clock and it does not conflict with other arrangements for the evening. Members are asked to come in full force and bring their friends for the opening meeting.

The trustees of the Temperance Hall, Keating, entertained with military band on Thursday, October 2, Saturday evening. The lucky contestants were as follows: First prizes, Mrs. B. Ames, Mrs. T. Gold, Mr. F. Tanner and Mr. Gordon Mitchell. Consolation, Miss Doris Mitchell, Miss Blanche Sherring, Mrs. G. Hafer and Mr. F. Gold. Miss E. Gold and Mr. F. Mitchell were the winners of the high bid. Following the game refreshments were served, after which a short time was spent in dancing, the music being provided by Miss Evelyn Anderson and Frank Gold.

As far back as I can remember Baker's was the best

BAKER'S COCOA

is better because it is made of better beans by a better process and has a better flavor than other kinds.

LIBERAL WOMEN TO FORM DOMINION CLUB FEDERATION

Miss Florence Edwards
 Chairman of Executive Committee

Ottawa, Oct. 1.—Liberal women look forward to a revival of the principles of Liberalism during Premier King's present Western tour. This is clear from an outline of a statement by the chief of their organization, Miss Florence W. Edwards, Ottawa, chairman of the executive committee of the proposed National Federation of Women's Liberal Clubs. She feels that everywhere throughout the four Western provinces, Liberal women will be active in the preparation of a welcome to the first citizen of Canada, Rt. Hon. W. L. Mackenzie King. As a preliminary to this greeting clubs will meet and new ones will spring up.

The administrative officers of the proposed National Federation of Liberal Clubs are Miss Florence W. Edwards, chairman; Miss Helen Doherty and Miss Beatrice Belcourt, secretaries, Ottawa, and Mrs. H. H. Carter, treasurer, Hamilton. The executive committee is composed of thirty-six members each of the nine provinces being represented.

ACTOR IS WEALTHY BUT CANNOT RESIST LURE OF SPOTLIGHT

Caesar Gravinga, who is one of the seventy-five principals in the cast of "The Hunchback of Notre Dame," which is at the Coliseum Theatre, is an actor who acts purely from love of his work. He is financially independent, being the owner of eight large theatres in Brazil and two in Chile. Each year he returns to South America for a few months to direct the destinies of his houses, but as soon as possible he hurries back to Hollywood and his beloved character parts.

His engagement for a small role in "The Hunchback of Notre Dame" after he had been featured in "The Merry Go Round," "Foolish Wives" and other big specials, gives some idea of the care taken in casting even the smallest roles in the Victor Hugo masterpiece. There are 200 players in "extra parts," who are ordinarily "programmed names."

Not only does Caesar Gravinga find music an absolute requisite for emotional acting on the set, but he chooses selections for scenes in which he appears with all the care he bestows upon his costume and make-up. It is not enough that sad music

should be played during tragic scenes," says Gravinga, adding, "There are different shades of tragedy, as of all other emotions, and there is some particular piece of music which fits each scene as no other."

Gravinga, who is Italian by birth, had selected a special list of compositions to be played during his scenes in the Victor Hugo picture, as follows: "Canta per Me" ("Sing for Me"), Guardann's Luna ("Lovely Moon"), "Teresta che Lucive" ("The Shining Window"), "Corengrato" ("Ungrateful Heart"), "Uscite Celeste" ("Blue Eyes"), "Peché" ("Why?").

Lon Chaney is the star of the picture and other players include Patsy Miller, Norman Kerry, Kate Lester, Brandon Hurst, Winifred Bryson, Harry Van Meter, Tully Marshall, Jane Sherman, Gladys Johnston and Nick de Ruiz.

The sheriff sent for the prosecutor. Meanwhile the children created bedlam in the jail, played with the handcuffs and snatched at loaded revolvers. The prosecutor when he arrived surveyed the scene, threw up his hands and ordered the sheriff to let the prisoner go.

all in one

Ghirardelli's Ground Chocolate takes the place of cocoa, unsweetened and sweetened cake chocolate

"A marvel of convenience" says every housewife who uses it. Are you enjoying the all-in-one advantages of Ghirardelli's Ground Chocolate?

NINE CHILDREN WON FATHER OUT OF JAIL

Menominee, Mich., Oct. 1 (By Canadian Press).—An hour after Joe Slavinsky was locked in jail here recently on a charge of bootlegging, his wife arrived at the jail with nine children, an old white horse and wagon and announced to the sheriff: "You got my man. Now you got us. We've got no food. You'll have to feed us."

The sheriff sent for the prosecutor. Meanwhile the children created bedlam in the jail, played with the handcuffs and snatched at loaded revolvers. The prosecutor when he arrived surveyed the scene, threw up his hands and ordered the sheriff to let the prisoner go.

LEADER OF FINANCE AND CHINESE TRADE GOING TO GERMANY

G. Martini, Importer and Exporter of Orient, Passes Through Port

Probably one of the best known men in the export and import trade in the Orient is Gustav Martini, a German by birth, who is interested in and connected with the Shantung Overseas Trading Company, otherwise known as Alfred Schroder & Company, of Tientsin. Mr. Martini makes his headquarters in Tientsin. His firm has large branch offices in Shanghai, Chefoo, Tsingtau and Hankow, as well as

Five things you should know about your tooth brush

- 1 Is it made of the best bristles the world produces?
- 2 Are the bristles serrated (saw-toothed), and set in a curve to fit against all your teeth, and to reach the crevices between?
- 3 Does it have a large end tuft, and a properly curved handle so that the end tuft can reach and clean back teeth?
- 4 Will it keep germs, tartar, food debris, and other unclean substances off your teeth?
- 5 Is it fully guaranteed?

When your tooth brush is a Pro-phy-lactic, you can answer all of these five questions correctly. The Pro-phy-lactic Tooth Brush has for more than forty years been the standard, correctly designed tooth brush for keeping teeth clean, white and beautiful.

Sold everywhere in Canada and all over the world. Prices are—Pro-phy-lactic De Luxe, 75c; Pro-phy-lactic Adult, 50c; Small Size, 30c; Pro-phy-lactic Baby, 25c. Each is made in three different textures of bristles—hard, medium and soft. The Dental Plate Brush is 50c. Send for "Tooth Truths," our interesting booklet about tooth trouble and how to prevent it. Florence Manufacturing Co., Limited, 875 Craig St. West, Montreal, Canada.

COME TO STUDY ELECTRIFICATION

Two Japanese Experts Passed Through on President Madison Yesterday

The electrification of the Japanese transportation system is the occasion of the visit to America of Yoshimi Nitta and Toyohiro Nakamura, two Japanese business men who are on their way through New York. Their object is to study suburban and general railway problems in the light of electrification of the lines, and particularly the problems of traffic in the new Tokyo and Yokohama, the system of tube lines in the capital being one which is contemplated will greatly aid the rapid transportation of passengers. Mr. Nitta told The Times on arrival yesterday on the liner President Madison, that he was engaged by the Mitsubishi company, and it was in their interests that he was making the tour. He has had a thorough knowledge of transportation problems both in Japan and on the islands of the Empire.

He spoke of the importance of electricity to Japan's future, and from the standpoint of industrial expansion and of transportation. It was to investigate the actual conditions that the Japanese are making in America, with a view to study cheap water power production, and to apply it in the homeland. Mr. Nakamura, who is to be in England at the British Empire exhibition, and their combined investigation will be utilized to effect the result of their American trip.

The development of electricity undertakings will cut down the cost of imported manufactured articles, which have been heavily against the country, and in the instance of American trade being all to the balance of the exporting country, and this is a dominant feature of Japanese industrial policy at this time.

LADY KINDERSLEY'S CREW WERE RESCUED JUST BEFORE SHIP WAS CRUSHED BY ICE

(Continued from page 1)
Hudson's Bay Company, was another of those aboard the vessel. W. Newton, the wireless operator who kept the outside world in touch with the Kindersley, and who was in the command of the ship, was also rescued. The ship was crushed by ice, and the crew was rescued just before the ship was crushed by ice.

SEATTLE SHIPPING

Seattle, Oct. 1.—Twenty thousand boxes of Washington apples were loaded on the German steamship Schenck here today for delivery at Hamburg, Germany, the first large apple shipment loaded in Seattle for German dealers.

After discharging 1,700 tons of inward cargo, the limon line steamship Carlsbad, bound for Seattle, departed here today for Tacoma to load additional offerings for United Kingdom ports.

The steamship Robin Hood, a Seattle-built unit of the limon line, arrived yesterday, departing later for British Columbia ports.

C. P. Caldwell, freight traffic manager of the Luckenbach Steamship company, who is here on a business trip, said today there has been an improvement in the inter-coastal trade.

Thirty thousand bags of cement from Norway, part of a shipment of 152,000 bags carried by the vessel, was being discharged yesterday by the tugboat motorship Theodore Roosevelt, of the Norway-Pacific line.

Bringing in the Yuletide log was a feature of the Christmas festivities a number of years ago, but the people of those days had the same opportunity of welcoming visitors from across the sea as your friends here in the old country have now. In connection with the Christmas sailings to Europe as advertised, the Canadian National Railways are operating special trains running on fast schedules to the ship's side. Special cars from the coast to be consolidated in these special trains at Winnipeg. Representatives of the company will travel on the "special" to see that every need of the passengers is met. Information, reservations, etc., from City Ticket Office, 111 Government Street, telephone 1242.

At last, when the field of ice was steadily growing and the ship was in danger of being crushed, the ship was abandoned. Capt. Foellmer decided to abandon the vessel. Then it was that the last stirring call for aid went out to the rest of the world, and the Boxer answered.

TWO OLD FRIENDS

Capt. Foellmer and Thomas Goldsmith of this city met this morning at the quarantine station for the first time in many years. They are old friends and have gripped hands after many adventures. And today they met once again at William Head.

"Eighteen years ago," said Mr. Goldsmith, "I loaned Capt. Foellmer my watch chain, when he was going out on one night. We were close friends those days, as we are now. Well, I did not see Gus for some time after that, and when I did we had both forgotten about the chain. Then, eighteen years later, Captain Foellmer came up to me, after he had been away for some time, and handed me my watch chain."

Mr. Goldsmith was wearing the old chain to-day when he met Capt. Foellmer, and the two seamen laughed heartily over their reminiscences.

Then Capt. Foellmer seemed to remember something. "I wish you could get a message to my wife," he said.

Thereupon he dictated a message. KINDERSLEY LOST

The Lady Kindersley is lost there is little doubt, the crew of the little ship believe. She was a staunch craft, built for her trade: a schooner with auxiliary engines. She had battled through many frightful storms in the northern seas, and it was only after a desperate battle that she succumbed to the crushing force of the Arctic ice fields.

MAY GO BACK AGAIN

The last thing that Capt. Foellmer said as the interviewers left him at the wharf was:

"Well, it's good to get home, but I don't know if I'm going north again shortly."

LEAGUE OF NATIONS PLAN PROVIDES FOR ARBITRATION

(Continued from page 1)

ing of the council at the request of any member of the League. Thus the report says when it has been recognized that a dispute arises out of a matter solely within the domestic jurisdiction of one of the parties, the party or parties involved will be fully satisfied to call upon the council or assembly to act.

The report then makes a point deemed by the jurists to be of great importance as follows:

Article 11 of the covenant does not deal with situations which are covered by rules of law capable of application by the courts. It applies only to cases which are not yet regulated by international law. Consequently, it demonstrates the existence of loopholes in the law. The reference to Article 11 will be an inducement to sacrifice to clear the ground for the work which the League will have to undertake with a view to bringing about a reconciliation between the individual interests of its members and the interests of the world which it is designed to serve.

IN COMMON INTEREST

This is deemed here to be another way of saying that many problems now claimed to be domestic in nature are really international and that the League might in such cases be able to deal with them. The League might in such cases be able to deal with them. The League might in such cases be able to deal with them.

Another feature of the report is a declaration regarding the settlement of disputes arising between a state and another state which has signed the protocol and states which have not signed it and non-members of the League. The signatory states may enjoy the essential advantages offered by the protocol, it is provided that the settlement of disputes arising between a state and another state which has signed the protocol and states which have not signed it and non-members of the League.

ARMAMENTS CONFERENCE

The resolutions were presented to the assembly. One recommendation acceptance of the protocol by members of the League. The other recommendation was that the League should arrange for a conference on reduction of armaments. The resolutions were presented to the assembly. One recommendation acceptance of the protocol by members of the League. The other recommendation was that the League should arrange for a conference on reduction of armaments.

HOW THE RESCUE EFFECTED

The many attempts to seek safety by the crew of the Kindersley had proved unsuccessful. Twice they had been rescued by the ship, but each time they had been forced back. The crew of the Kindersley had proved unsuccessful. Twice they had been rescued by the ship, but each time they had been forced back.

PREVIOUS ATTEMPTS

There were other attempts made to gain the Boxer by the crew of the Kindersley. In these attempts over the ice, the ship was forced to abandon the vessel. Then it was that the last stirring call for aid went out to the rest of the world, and the Boxer answered.

PRES. MADISON IN FRONT EAST SPOKE RAILROAD

Capt. Thos. P. Quinn Sighted Ship Making Heavy Weather Off Straits

Running close upon the heels of the steamship President Jackson, which docked on Monday, the Admiral Oriental Line steamship President Madison, Capt. Thos. P. Quinn, made port yesterday afternoon from the Orient.

On arrival here Capt. "Fair-weather" Quinn reported sighting outside the Straits the Bayshore steamer Bayshore running into heavy seas. The Bayshore, which brought in the crew of the auxiliary schooner Lady Kindersley, was sighted by the Bayshore steamer Bayshore running into heavy seas.

The President Madison experienced a good passage, but encountered along western side and rain at the close of the voyage. The vessel averaged a speed of 13.25 knots for the trip from Yokohama.

She brought in 4,000 tons of general freight, 150 tons of which were landed here. Approximately 2,000 bales of silk, for New York, and other eastern points, for transshipment from Seattle, were below the vessel's hatches. The principal items of the cargo were 400 tons of tea loaded at Shanghai, and 450 tons of hemp loaded at Manila.

Among the prominent passengers were the following: M. L. Volney, manager Asiatic Petroleum Company at Batavia, and family, who disembarked here; S. Bentrop, prominent missionary from Hankow, wife and two children; J. M. Goodwin, manager Standard Oil Co. at Swanton, on vacation; John W. Keller, Orient representative Baldwin Locomotive Co., Harbin, and his wife and two children; C. L. Long, well-known fruit man, returning from Manila, Mrs. H. G. Marshall, wife of United Press Correspondent at Peking, and her two children; Miss L. Mitchell, Professor American Girls School of Shanghai; J. M. Peters, accompanied by his two children, a prominent merchant of Macao; Louis J. Schwartzkopf, prominent missionary of Shanghai, wife and three children; W. O. president Chinese American Tobacco

GOOD AVERAGE

The vessel averaged a speed of 13.25 knots for the trip from Yokohama. She brought in 4,000 tons of general freight, 150 tons of which were landed here. Approximately 2,000 bales of silk, for New York, and other eastern points, for transshipment from Seattle, were below the vessel's hatches.

PRES. MADISON IN FRONT EAST SPOKE RAILROAD

Capt. Thos. P. Quinn Sighted Ship Making Heavy Weather Off Straits

Running close upon the heels of the steamship President Jackson, which docked on Monday, the Admiral Oriental Line steamship President Madison, Capt. Thos. P. Quinn, made port yesterday afternoon from the Orient.

On arrival here Capt. "Fair-weather" Quinn reported sighting outside the Straits the Bayshore steamer Bayshore running into heavy seas. The Bayshore, which brought in the crew of the auxiliary schooner Lady Kindersley, was sighted by the Bayshore steamer Bayshore running into heavy seas.

The President Madison experienced a good passage, but encountered along western side and rain at the close of the voyage. The vessel averaged a speed of 13.25 knots for the trip from Yokohama.

She brought in 4,000 tons of general freight, 150 tons of which were landed here. Approximately 2,000 bales of silk, for New York, and other eastern points, for transshipment from Seattle, were below the vessel's hatches. The principal items of the cargo were 400 tons of tea loaded at Shanghai, and 450 tons of hemp loaded at Manila.

Among the prominent passengers were the following: M. L. Volney, manager Asiatic Petroleum Company at Batavia, and family, who disembarked here; S. Bentrop, prominent missionary from Hankow, wife and two children; J. M. Goodwin, manager Standard Oil Co. at Swanton, on vacation; John W. Keller, Orient representative Baldwin Locomotive Co., Harbin, and his wife and two children; C. L. Long, well-known fruit man, returning from Manila, Mrs. H. G. Marshall, wife of United Press Correspondent at Peking, and her two children; Miss L. Mitchell, Professor American Girls School of Shanghai; J. M. Peters, accompanied by his two children, a prominent merchant of Macao; Louis J. Schwartzkopf, prominent missionary of Shanghai, wife and three children; W. O. president Chinese American Tobacco

GOOD AVERAGE

The vessel averaged a speed of 13.25 knots for the trip from Yokohama. She brought in 4,000 tons of general freight, 150 tons of which were landed here. Approximately 2,000 bales of silk, for New York, and other eastern points, for transshipment from Seattle, were below the vessel's hatches. The principal items of the cargo were 400 tons of tea loaded at Shanghai, and 450 tons of hemp loaded at Manila.

ARMAMENTS CONFERENCE

The resolutions were presented to the assembly. One recommendation acceptance of the protocol by members of the League. The other recommendation was that the League should arrange for a conference on reduction of armaments. The resolutions were presented to the assembly. One recommendation acceptance of the protocol by members of the League. The other recommendation was that the League should arrange for a conference on reduction of armaments.

HOW THE RESCUE EFFECTED

The many attempts to seek safety by the crew of the Kindersley had proved unsuccessful. Twice they had been rescued by the ship, but each time they had been forced back. The crew of the Kindersley had proved unsuccessful. Twice they had been rescued by the ship, but each time they had been forced back.

PREVIOUS ATTEMPTS

There were other attempts made to gain the Boxer by the crew of the Kindersley. In these attempts over the ice, the ship was forced to abandon the vessel. Then it was that the last stirring call for aid went out to the rest of the world, and the Boxer answered.

Strategy Battle Will Be Closely Watched By Fans

McGraw, the "Master Mind,"
Pitted Against Youngest
Manager in Majors

Harris, of Washington, Will
Undoubtedly Prove Good
Match For Giants

New York, Oct. 1.—The world's baseball series between New York and Washington promises many spectacular feats, and yet the least of these will be the battle of strategy between John J. McGraw, veteran leader of the Giants, and Stanley A. Harris, youthful playing manager of the league champions.

McGraw, known as the "master mind" and the "little Napoleon," will match the experience that has carried him to ten pennants in the past twenty years, four of them in a row, against the fiery leadership of "Bucky" Harris, youngest of all pennant-winning pilots inspired by a struggle heralded as a test between his master mind and "brute force," as typified by Babe Ruth and the slugging Yankees. This year "ambitious youth" will try to outwit the "master mind."

Harris, who will not be twenty-eight until November 8, has had only five years' major league experience. McGraw has led the Giants into the fray since 1902. He was a playing star on the famous Baltimore Orioles in the nineties before Harris was born at Port Jervis, N.Y., in 1896. McGraw directs his athletes from the bench. He is credited with deciding every pitch his twirlers throw and with directing all moves on the attack. Harris leads his men from a post in the thick of the fray.

Ability to inspire aggressiveness is characterized by both managers. McGraw's clubs have always been known for their fighting qualities, particularly under fire, while Harris has his men battling with unquenchable spirit throughout one of the hottest campaigns in history.

Harris, who was bought from the Buffalo Club in 1919 at a reported price of only \$4,000, is a reliable fielder and a dependable batter. His chief asset, however, has not been his playing ability, but the manner in which he has won a pennant with a supposedly mediocre team.

ELEVENTH HOUR CHOICE

He succeeded Donnie Bush at the start of the season, his selection being made at the eleventh hour by Clark Griffith, who turned a pennant winner out of virtually the same material that just managed to get out of the second division in the closing part of last season.

Harris shares the fruits of victory with his great pitcher, Walter Johnson, who played a major part in the triumph of one of the best seasons of his long career, but the fighting spirit that the young manager instilled into his club was probably the most decisive factor.

Harris broke into baseball with the Pittsford, Pa., club in 1915. He went to Detroit at the opening of the next season and closed the year at Scranton, Pa. The Muskogean, Mike Norton, who was with him at Buffalo, then claimed his services before he came to Washington.

HAIR STAYS COMBED, GLOSSY

Millions Use It—Few Cents
Buys Jar at Drugstore

Even stubborn unruly or shampooed hair stays combed all day in any style you like. "Hair-Groom" is a dignified combing cream which gives that natural gloss and well-groomed effect to your hair—that final touch to good dress both in business and on social occasions. "Hair-Groom" is greasless; also helps grow thick, heavy, lustrous hair. Beware of greasy, harmful imitations.

FINN AT IT AGAIN

PAAVO NURMI

Running at Kuopio recently over a 10,000-metre course Nurmi, the Olympic hero, made what are claimed to be five new world records. He ran 10,000 metres in 30 minutes 6 2-5 seconds, four miles in 19 minutes 18 7-10 seconds, five miles in 24 minutes 13 2-5 seconds, six miles in 29 minutes 7 4-5 seconds, and covered 9,857 metres in a half-hour.

Edmonton Grads Win Easily Over Team From Across Border

Edmonton, Oct. 1.—Commercial Graduates, ladies' basketball team of this city, last night defeated the Warren Elite of Warren, Ohio, by a score of 33 to 11 in the first of a two-game series for the international basketball championship. The locals showed a decided superiority in all departments of the game. This makes their thirty-seventh consecutive victory.

Funny Old Nick Helps Senators Lose Last Game

Altrock Hits a Three-bagger
And Yields One Hit But
Boston Wins

Boston, Oct. 1.—Boston finished in seventh place yesterday by defeating the pennant winning Washington Senators, 13 to 1, in a game which showed that the latter harbored no grudge against Boston for having delayed the finish by taking the first of the final series here. Nick Altrock, Washington's clown catcher, delighted the fans by holding the home team to one run, while he had possession of the mound for the final two innings, and then he capped the day by scoring the only Washington run after hitting a remarkable three-bagger. Washington..... 1 9 0
Senators..... 13 16 0
Specie, Altrock and Rube Tate; Ferguson, Ehms and O'Neill.

COAST LEAGUE
Los Angeles, Oct. 1.—Vernon hit three pitchers hard and defeated Sacramento 9 to 4 in the opening game of the series here yesterday. Hughes, Solon pitcher, who took the mound after Hall had been battered to the showers, was ordered from the game by Umpire Carroll for repeatedly disputing decisions. R. H. E. Sacramento..... 4 9 3
Batteries—Hall, Hughes, Peters and Shea; Penner and D. Murphy.

OAKLAND LOSES CHANCE
Oakland, Oct. 1.—Salt Lake City put a crimp into Oakland's pennant chances here by defeating them when they defeated Howard's men 5 to 2.
In the fifth inning, after one run had been scored, two men were on base when Pittenger hit a long fly to left field. The smash went for a freak home run when Fiedler Bratcher fell over a water pipe near the fence and sprained his ankle. He was carried off the field.
H. R. E. Salt Lake City..... 5 10 2
Oakland..... 2 2 1
Batteries—McCabe and Peters; Malle and Baker.
(Others traveling).

Canadian Golfers Beaten by British Walker Cup Team

Toronto, Oct. 1.—The members of the British Walker Cup team emerged victorious yesterday in the three best foursomes against six Ontario players. Cyril Tolley and Major Hazlett defeated Frank Thompson and Ross Somerville, the Canadian amateur champion, and runner-up, respectively by six and four.
Hon. Michael Scott and E. F. Storrer defeated W. J. Thompson and S. Lyon, three and one, while W. L. Hope and Robert Scott, Jr., won from J. Lewis of Brantford and J. Haddon of the Toronto Club.

Cream of Seattle Hockey Team Will Remain On Coast

Frank Patrick Denies That
Mets Have Been Sold to
Boston Interests

Willing to Help Art Ross Organize Team But Will Keep
Best Players Here

Vancouver, Oct. 1.—Frank Patrick said today that while he knew Boston interests were contemplating entry into the N.H.L. this coming season, there had been no sale of the Seattle team to Mr. Adams and his associates.

Art Ross is a lifelong friend of Mr. Patrick and the coast hockey leader is willing to help him in collecting a major league hockey team.
"But," said Mr. Patrick, "while Seattle players give us a surplus of talent, the cream of last year's Sound City squad will remain on the coast."

Boston, Oct. 1.—The Seattle hockey team of the Pacific Coast League will be taken over this winter by Charles F. Adams of this city. It was announced last night. The club will be known as the Boston Professional Hockey Association, Inc., under the presidency of Mr. Adams, and it will be the only American member of the National Hockey League, the strongest professional hockey circuit.
Art Ross, a former amateur star player, and now a professional, will manage the team and act as vice-president. Three teams in the circuit are at Ottawa, Toronto and Hamilton, and Montreal has two teams, one French-Canadian and the other British-Canadian.

The arena rink here is being remodelled to the professional standard. The news that the Seattle team had not been sold outright will be welcomed by Victorians who have been casting longing eyes on several of the Mets. It is the sincere hope of the fans here that Lester Patrick will get some of last year's Seattle stars to strengthen the weak parts in the Cougars' machine.

RILEY IS THROUGH

Seattle, Oct. 1.—Jim Riley, former Seattle hockey star and this season first baseman of the Shreveport team of the Texas League, reached Seattle early this week for a short visit.
Riley will not play hockey this winter, he says. Frank Patrick, Vancouver manager, who owns his contract, will send Riley to Calgary, but the big fellow says he is through and will return to Shreveport shortly to spend the winter.

Riley had a good year with Shreveport, was one of the few players who started the season and finished it, too, with that team.

Oak Bay Golfers Will Compete For Trophy Saturday

Challoner and Mitchell Cup
Will be at Stake; Many
Entries Expected

The qualifying round for the Challoner and Mitchell Cup will be played at the Victoria Golf Club on Saturday, October 4. The round will be an eighteen holes medal play and the competitors will be allowed their full handicap provided it is under 24. Players may choose their opponents, also arrange their starting time.
The sixteen players returning the lowest net scores will be drawn against one another to play off, match play, for the possession of the trophy for one year or until the next competition is next played. An additional prize will be given by the club, which the winner will retain. In case of a tie for the last qualifying place a full round will be played to decide. If the handicaps are equal only one or more holes shall be played.

The competitors, other than the first sixteen, will be divided into flights, according to the number of players and will be drawn in the same way as the first sixteen to play off in each flight.
It is hoped that the first round, and possibly the second round, in all flights will be played on October 5. It is necessary that all the rounds be played as soon as possible so that the competition will be held shortly.
All match play rounds will be eighteen holes.
In playing off the flights three-quarters of the difference between the handicaps will be allowed.
A prize will be given to the runner-up in the cup flight and the winners of all the other flights will be awarded a prize.
The entrance fee will be \$1 and must be paid before taking part in the competition, for which post entries will be made.

Mrs. Abell Meets Mrs. Rihet For Colwood Crown

Mrs. Abell and Mrs. Rihet are the finalists in the ladies' championship of the Colwood Golf and Country Club. In the semi-finals yesterday Mrs. Abell defeated Mrs. Gillespie seven and five, and Mrs. Rihet defeated Mrs. Leming eight and six.

New Men To Lead Toronto Varsity In Quest of Canadian Rugby Title

LEFT, JACK NEWTON; RIGHT, WARREN SNYDER

The University of Toronto football team this year will have new leaders in the college football race. Jack Newton, the new coach, hails from Sarnia and is a former captain and half-back of the U. of T. team. Warren Snyder, the new captain, is the outstanding back-field player of the Intercollegiate Union and one of the great football stars in Canada.

President Takes Time Off To Welcome Ball Heroes

Washington, Oct. 1.—Sophisticated old Washington cast off its dignity today to welcome home in sandlot fashion its American League pennant winners. For about the first time in history the city had a chance to stage its own parade, cheer its own heroes and forget that it was the sedate capital of America.

High officials of the Government slighted their state duties to turn out for the general scramble for pennant. The parade, which will be held on Pennsylvania Avenue and shout and yell a greeting to the team that has given the city its first pennant in the annals of baseball.
President Coolidge a week ago had carefully reserved an hour from the demands of his official duties to take a leading part in the celebration. Every detail of the parade, from the official stamp of approval of a committee appointed by the district commissioners.

Pigskin Sports Look For Banner Time This Year

Football Has Three Games
For Saturday; Rugby Gets
Underway on October 11

Both Rugby and Association football are well on their way to the biggest and brightest seasons in local annals. Association football got some kicks today to welcome home the two teams who were played in the First Division. Arrangements have been made to have three games for the coming Saturday. Owing to the fact that the Tillamooks did not come through with their much needed entry for the First Division it has been necessary for one team to stand down each week.

The club that holds the bye this week is Victoria West.
The draw is as follows:
Moose vs. Sons of England, at the Royal Athletic Park, Referee, Ockwell.
Kore, Wards vs. Equival, at Beacon Hill, Referee, Aloock.
United Services vs. Veterans, at Union Point Barracks vs. Referee, Saunders.
RUGGERS OPEN OCT. 11
The Victoria Rugby Union will not open its season until a week from Saturday. All preparations have been completed and His Honor the Lieutenant-Governor will attend the kicking of the ball in the first game.
In order to determine whether or not double-header will attract more people than two games staged on different fields, the Union will hold both opening fixtures, on Oct. 11 at the Willows. The J.B.A.A. champions, and Oak Bay Wanderers will meet at 4 o'clock. Capt. Coley, Ernest, Referee, and Bill Ellis have been named as the selection committee for the Union this year. They will pick the McKelvin Cup team for games with Vancouver and Varsity.

Varsity Sending Team

Vancouver, Oct. 1.—The University of B.C. is preparing to send a team to Edmonton for the annual intercollegiate track and field sports in that city on October 24.

Wilbert Robinson is one of the greatest all-round men in baseball, judging him by his waistline.

P.N.W. Golf Body To Again Attack Amateur Ruling

Annual Meeting of Association in Seattle Saturday Will
Take Up Matter

Local Delegates Will Participate in Discussion; Want to
Help Champions

Considerable interesting business will come up for discussion at the annual meeting of the Pacific Northwest Golf Association to be held at Seattle on Saturday next. The chief topic will be the continuation of the fight by the association to allow it to defray the expense of its championship to the United States amateur golf championship each year. The definition of an amateur as laid down by the U.S.G.A. will be freely attacked by the association. It has prevented P.N.W. champions from going East.

Delegates from all clubs in the P.N.W. will be in attendance. The Victoria Golf Club will be represented by J. E. Wilson and H. J. Davis. Vancouver will have the following four delegates, T. W. Fletcher, J. E. Hall, K. A. McLennan and Secretary H. P. Taylor.

Under the U.S.G.A. rule, an amateur may have his expenses paid on any of an international match, unless he goes along as the guest of someone. As national tournaments are all held in the East and will continue to be held there, this means that the Coast stars are out of it unless they have big personal bank-rolls or friends with big purses, big hearts and the time to play chaperon on a three weeks' jaunt.

During the two years of his presidency of the P.N.W.A., A. S. Kerry, of Seattle, has been hammering on the door panels of the national body with a view to securing permission for the Northwest Association to send its titleholder to the big tournament. No change has as yet been effected in the official U.S.G.A. attitude, but a number of the officers of that association have begun to show signs of listening to reason. So much so that the fight is destined ultimately to bring success.

Kerry has definitely declared that he will not seek or accept renomination for the P.N.W.A. presidency, but prominent golfers who have appreciated the services he has rendered the game in the past two years feel that his usefulness to the association must not be entirely lost. They suggest, therefore, that the retiring president be officially designated as a committee to carry on the campaign for the changing of the amateur rule.

CALIFORNIA IN LINE

The P.N.W.A. is not alone in the fight. Roger Lapham, of Fresno, a member of the U.S.G.A., executive, recently wrote urging Kerry to keep up the battle, intimating at the same time that he would take the matter up at the national board. Kerry felt that it might be making a nuisance of himself to communicate again directly with the U.S.G.A. so much so that he gave Lapham an outline of his views on the subject so that the latter might make such representations as he deemed advisable.

Briefly, the Kerry plan is as follows: Under the aegis of the United States Golf Association, there should be regional associations, one for each country, such as, for instance, the P.N.W.A.

In each regional association, each member club should be permitted to send its own club champion to compete in the regional championship, which would ensure the presence of the best players in the tournament.

Each regional association would have the privilege of sending its champion to the national tournament, which would ensure the participation of the country's best golfers in the national events.
Kerry points out that by making membership in the national association a pre-requisite of regional association membership, the United States body would be in control right down the line and there would be no danger of the abuse of the privilege of paying expenses, a danger which the U.S.G.A. officials have balked at in past discussions of the matter.

Coast Lightweight Title Swaps Brows

Vernon, Cal., Oct. 1.—Taking four straight rounds, Sammy Mandell of Rockford, Ill., lifted the Pacific Coast lightweight championship from Johnny Adams, champion of the world, to a 233 clip, while the Meusel-Young-Wilson trio, the nearest to any regular array McGraw has had, averages only 314. Each club has a youngster sandwiched between two veterans but these two youngsters, McNeely and Wilson, have played generationally.
There is a probability that McGraw will shift his outfield to suit the occasion and thus the averages will be juggled up somewhat, but the best combination that McGraw can place in the outfield will not be as good as Washington.

McGraw Must Juggle

Irish Meusel's batting slump and the failure of Southworth to come up to expectations caused McGraw to juggle his outer works this season. Young, in right field, is the only fixture. Against right-handed pitching, McGraw probably will use Wilson in left and George Kelly, regular first-sacker, in centre. Against left-handers, Wilson will be in centre, and Meusel in left. O'Connell, the \$75,000 Pacific Coast beauty, also is a centre field eligible.
Harris will bank on his regulars, but he has one good utility man in Liebold, who came to the Senators from the White Sox.

Handicap Tournament
All members of the Uplands Golf Club are reminded of the handicap tournament at the Uplands Golf Club to be held on October 5. All entries must be in by 5 p.m. on Thursday, October 2. Those who wish to play may phone their entries to the secretary at 3574.

RETAINS HER TITLE

GLENNA COLLETT

In the Canadian ladies' golf championship she won last year. She hails from the United States and has held the championship of that country.

New Bird Sanctuary Declared on Waters Surrounding Capital

Sportmen are asked to take note that the Gorge waters, Portage Inlet and the Victoria sea front have been declared a Federal bird sanctuary under the Migratory Bird Convention Act. The boundaries of the reserve are as follows:

Commencing at high water mark on Cadboro Point (commonly called Ten-mile Point), near the city of Victoria, British Columbia, thence in a southeasterly direction to the most southerly point of Trial Island, thence westerly to Brothcroft Ledge, thence to high water mark on Macaulay Point, thence along high water mark on the shores of Vancouver Island to point of commencement including all areas below high water mark in Victoria Harbor, Selkirk Water, Victoria Arm and Portage Inlet. No shooting is allowed within this area at any time and it is the intention of the Provincial Police to prosecute any person found carrying firearms in the sanctuary.

Denenny's Terms Shock Bosses But They Take Him On

Demon Sharpshooter of Ottawa Hockey Club Comes to Terms

Ottawa, Oct. 1.—The Ottawa Hockey Association has made the announcement that Cy Denenny, demon sharpshooter of the Senators and leading goal-getter of the National Hockey League last season, has signed for the coming winter. It is understood the famous Cornwall product, after his remarkably successful campaign last winter, named terms that made President Frank Ahearn and Manager Tommy Gorman rasp.

For a time it was rumored that there was friction between the Ottawa management and Denenny, and that Denenny's name had been added to those who were to be passed up by the Ottawa management in favor of younger blood. However, things were satisfactorily arranged last week, with the result that Denenny, attached at name to a National Hockey League contract and handed it in to the Ottawa club owners. Cy is perhaps one of the most popular members of the Ottawa team.

READY WITH TEAM

The addition of Denenny leaves the Ottawa in a position to put a team on the ice at any time. They have signed Joe Ironstone, celebrated young goal-keeper of the Sudbury Wolves for the nets, and have George Goucher and Lionel Hiltzman for the defence, with Frank Finnegan, Frank Clancy and Cy Denenny for the line. It is also said that they have two crack stars under their wings, and that an important announcement will be made in a day or two.

President Frank Ahearn states that he was not yet in a position to discuss the plans of the Ottawa with regard to Hooley Smith, whom the Ottawa, according to outside reports, have been trying to land. The intentions of the Ottawa as to Frank Nighbor are also being guarded secretly.

Discard Form to Get Ball Across Net, Says Tilden

Tennis Technique Forgotten
By Players Who "Scramble"
And Return Shots

Terrific Speed and Spin Not
Only Requirements of Winning
Service

By WILLIAM TILDEN

What is a great tennis player? By that I mean a great match player. The question came up in the course of a fanfest I had at Buffalo with Cedric Major, and his reply was most interesting. He said:
"A great tennis player is one with ability to scramble."

For a moment I thought he was discussing eggs, and then I realized that he had placed his finger on one of the real essentials of the great match player. What he meant, was the ability of a player to go out after the impossible shot and return it in the pinch; return it, no matter how, but still return.

I am a great believer in style and form, but when the ultimate showdown comes, when the crisis is at hand, it is results, not style, that wins. "Scrambling" well expresses the real vital point.

Watch Billy Johnson, Vincent Richards, Wallace Johnson or Manuel Alonso, our leading "scramblers" and see them discard form, strokes and any other piece of tennis technique to return a seemingly impossible shot. They sprawl over the court, even at times using two hands if caught, but they put back that ball. JOHNSTON'S PICK-UP

I well remember a marvelous two-handed pick-up shot of Billy Johnson's in 1920 when I lost him two sets to one in a match in the final of the national championship. I smashed at his feet, a certain winner, yet Johnston "scrambled" his way to the ball and pushed it back with two hands. It saved him the set, which ultimately he won. His ultimate defeat had no bearing on the case, for if he had not made that shot he was lost, three sets to one.

Many times Richards has pulled out matches that seemed hopelessly lost by scrambling a shot with no idea except the one of putting back the ball.
It is impossible to overstate the value of playing every point until it is hopelessly lost. Many fine players notably N. N. Niles, Craig Biddle and R. N. Williams, have lost vital matches because they will not scramble at the expense of form. Tennis is a game of result. Put back the ball in a manner of your own choice with no more effective weapon than the handle or frame of your racket. Cedric Major showed wisdom and analysis when he summed up the great match as the ability to scramble in the pinch.

THE CORRECT SERVICE

What is a great service? The general idea of a great service is one of blinding speed and terrific spin. Usually such a delivery comes up to the definition of a great service, yet I would give another thought to add to it.
In my opinion a great service is one which is difficult to return. It is not a matter of speed or twist alone. It is a question of brains.

No one will attempt to deny that the delivery of a great service is the delivery of a great service. R. N. Williams, Howard Voshell and Willis Davis are great, yet what about those of Zeno Shimizu, Wallace Johnston, John A. If no account in the old days, a Harold Hackett? This latter group seem to push the ball over the net with little or no real speed or even twist, yet so cleverly are their serves played, so subtly are they placed, that it is seldom that the receiver can do more than defend and often he actually misses his return. I consider these men in the latter group possessors of great delivery.

Billy Johnston partially represents both groups, yet he is hardly to be placed in either; but certainly his service is great. The first type may thrill a gallery far more than the second, yet I do not regard such serves as essentially great.

IT MUST WIN

The only requisite of a great service is that it wins. Whether the result is derived from speed, spin or placement is a matter of no account. The truly great server is the man who combines all three assets and then mixes them up with a sound judgment according to the man he is playing.

(Copyright, 1924, by Public Ledger Company.)

Bout Between Firpo And Wills Resulted In Financial Loss

Trenton, N.J., Oct. 1.—Tex Rickard lost \$5,000 in promoting the Wills-Firpo fight in Jersey City, according to a statement made by the State Comptroller Newton A. K. Hughes, who is also State Athletic Commissioner, yesterday. Total expenditures as set forth by Mr. Rickard in connection with the bout were \$467,845 and the total income was \$462,850. Firpo received \$158,211 as his share of the receipts and Wills \$150,000.

FILM STARS ARE
FINDING EXERCISE
MOST INVIGORATING

Various ways of passing the time between the filming of scenes have been devised by motion picture players, technicians, and the studio personnel, but the national pastime seems to be the most favored on the Metro lot. Between "shots" of "Happiness," now playing at the Playhouse Theatre, Laurette Taylor's latest cinema starring vehicle, Director King Vidor, cameraman Chester Lyons, and Assistant Director David Howard played baseball with the carpenters, property men, and actors who felt the need of invigorating exercise.

MOVIES BRING NEW
BEACH GAME INTO
VOGUE ON COAST

"Harpooning sharks" is a new and exciting beach game which leading summer resorts are now advertising, thanks to the movies.

"Harpooning sharks" caught the attention of those who control popular beaches when Cecil B. DeMille introduced it as a feature of his new Paramount picture "Feet of Clay," part of which was filmed at Catalina Island.

The game is played with a padded target in the semblance of a floating shark, with concentric circles marked with various figures.

The players are girls in bathing suits carrying ribbon-tufted harpoons and mounted on forty-mile-an-hour speedboats. As the crafts

"Feet of Clay" is showing at the Dominion.

THRILLS GALORE
ARE OFFERED IN
"STORM DAUGHTER"

A storm at sea which seems to tear the sky to pieces with wild flashes of lightning, and hurls wild surging waves against a wooden sailing vessel, is the most gripping situation in Priscilla Dean's latest Universal production, "The Storm Daughter," now showing at the Columbia Theatre.

Tom Santuchi has an excellent role as the half-breed, woman-hating sea captain, "Brute" Morgan. Others in the cast who were directed by George Archambault include William E. Davidson, Cyril Chadwick, J. Farrell McDonald and Bert Roach.

GEORGE D. BAKER
ENDS RETIREMENT
FOR "REVELATION"

After two years of retirement from motion pictures, George D. Baker, one of the most famous of directors, was lured back to Hollywood to put on Metro's all-star production of Mabel Wagnalls' "Revelation," now at the Capitol Theatre.

Two years ago, Mr. Baker went abroad to enjoy the fruits of his labor and thought he would never go back to the studios.

But when Metro officials approached him with the offer to make "Revelation," the temptation was too much, and Mr. Baker returned to the glare of the Klieg lights.

The Metro director came by his stage and screen success by following the straight line toward his goal. As a boy in the village of Beatrice, Nebraska, he had an excellent opportunity in his father's office, but he wanted to be an actor. Accordingly he spent two years of hard study in a Chicago dramatic school. Later he played important roles in support of Walker Whiteside and Nance O'Neill.

CROWN UNCOVERS STAR
WITNESSES AND CLOSES
SENSATIONAL EVIDENCEDefence Fights Bitterly Evidence Entered by Pathologists
as to Blood and Other Traces on Book Car;
Fifty-five Witnesses and Half a Hundred Exhibits
Entered by Prosecution at Manslaughter Hearing.

With over half a hundred exhibits in and fifty-three witnesses heard on the stand M. B. Jackson, K.C., closed the case for the crown in the hearing of Rex versus Book yesterday at 5 p.m., thus ending one of the most bitterly contested and exhaustive presentations ever heard in local criminal courts. Three hours of cross examination in which H. A. Maclean, K.C., for the defence, sought to tear down the wall of evidence raised by the prosecution, marked the proceedings that held hundreds tense during the afternoon session.

Doctors John H. Moore and W. F. Walker, pathologists at the St. Joseph's and Jubilee Hospitals respectively, and Provincial analyst D. E. Whittaker, concluding for the crown, gave the most sensational evidence heard during the long drawn out proceedings to date.

The pathologists stated that they found traces of blood, tissue, skin, and hair on portions of the book car exhibited to them for testing. Dr. Walker gave it as his opinion that some of this matter was from a human body. Both pathologists told of conducting a series of tests with serums imported from San Francisco and Toronto for the purpose, and described their results.

A collection of specimens, exhibited with their counterparts, known as "controls," were shown to the jury in a slide of microscopic evidence. One specimen was said to be an eyebrow hair, and compared to the actual eyebrow hair from a normal human being.

The evidence was bitterly assailed by the defence in a ding-dong battle that waged all afternoon, and at times became acrimonious in the warmth of its expression. The defence opens to-day.

Taking the stand as fifteenth witness for the prosecution D. Edmund Whittaker, Provincial Government analyst, stated that the two doors of the left side of the book car and a piece of door handle had been brought to him for examination.

Making a preliminary examination in the presence of Chief Constable Owens at that time, witness found traces which led him to declare the question was not in his province to settle, and referred the police officer to the Jubilee Hospital Laboratory.

What were those traces, witness was asked.

MARKS ON DOOR

Witness—I noticed what I thought was a piece of skin and a little hair, and as that is not my work at all I told them to refer it to the hospital.

Mr. Justice Murphy—Where were the marks that you took to be skin and hair?

Witness—On the bottom of the door.

This stage Constable Brown, of the Saanich force, took the stand to identify a flashlight, Exhibit 42, as his.

Word of two other tests made by the crown were given to the jury. Chief Constable Robert Owens, Provincial Police, stated that in company with Mr. Jackson and others he had gone to the Armstrong Machine Works where a portion of the Ballantyne clothing had been pressed against a metal surface with results that were later photographed by C. B. Roacher. The metal on which the surface test was made became Exhibit 43.

METALS SCORED

On the stand witness told of another test with a piece of enameled tin, over which was rubbed by hand a portion of the Ballantyne clothing, pressed by a block of wood. This tin and its subsequent markings were also put in exhibit. This evidence indicated, Mr. Jackson was addressed to the markings on the book car.

Cyril Bagshawe Roacher, photographer, told of taking several pictures at the scene of the accident, and also of the metal surface tests. He identified a list of negatives and prints, which became exhibits, numbered in turn.

Witness exhibited also a photo of the rear left door of the book car on which the crown alleges markings are to be seen similar to those in the metal surface tests independently made by the police. A portion of the Ballantyne clothing used in the police tests was identified and marked Exhibit 50.

Dr. John H. Moore, called to the stand as one of the main witnesses for the crown, was at first examined on his participation in the party at Brentwood. He left the scene somewhere about 9 p.m., stopped to change a tire for a fellow doctor on the way and was in the city before 10 p.m. The accused passed witness's car as the latter was just setting out to come home.

INSTANTANEOUS DEATH

Witness was next questioned as to the injuries to the late Mr. Ballantyne and the late Mr. McLachlan. Both, he said, had died of the injuries received, and almost instantaneously. Both had been terribly injured. In the case of the Ballantyne remains he found a channel one inch wide the width of the head, or about four inches long. One quarter of the brain contents were missing.

Five ribs were stove in, in the case of the McLachlan body, and both men had sustained fractures around the lower region of the legs. In general the injuries had the appearance as if the victims had been struck from behind and towards the right hand side.

In reply to questions witness said the human body under normal conditions would take about twenty-four hours to become "absolutely cold."

It was, however, on the pathological phase of the case that witness stood out as one of the star witnesses for the prosecution. Dealing with Exhibit 28, the front door, witness said he found several areas in which a series of fairly evenly placed scratches were visible. The hind, or posterior, door, continued Dr. Moore, had the appearance as if it had been struck by a heavy body. The same type of scratches were visible on it.

On both doors there were a number of spots which had the appearance of

blood, a line for reptilian blood and so on?

FOUND CORPUSCLES

Witness: I did not say anything of the kind, you said that. I said I found corpuscles under the microscope test, with Dr. Walker.

Mr. Maclean: Oh, so you saw them arrive under Dr. Walker, as it were. Was anyone there in the interests of the accused?

Witness: No, just Dr. Walker and myself.

Mr. Maclean protested to the court that he had been given no word or opportunity of having representation in the testing, and took his seat. Dr. Moore remained on the stand, but no more questions were uncovered.

Dr. W. F. Walker, pathologist at the Jubilee Hospital, took the stand. Witness said in a preliminary examination of a fragment of door handle, Exhibit 29, he had identified fibres of woolen clothing. There was a coagulation of tissue, fatty and greasy in appearance. A hair identical with the human eyebrow, and a seed of grass were also observed by him. He observed, also, some threads of color, a pale blue. All this was on the fractured end of the fragment, or near the end.

On September 18 witness sealed up the exhibit as testing material was

not to hand. Later it arrived from San Francisco and from Toronto. The San Francisco Bordet serum was unsatisfactory and was not used, but a test was made with the Toronto product. Witness made microscopic and other examinations, four in all, and had a slide of several plates to show to the jury.

These mounted specimens were shown along with their "controls," that is known articles such as actual hairs from the human eyebrow and a piece of cloth. Witness exhibited, too, what he described to be the fat extracted from the matter tested, and which had to be eliminated before testing commenced. This matter was taken from the door handle fragment.

Witness said he found muscle fibres on the same article, woolen fibre and fatty tissue. Witness said he removed with a pair of forceps what he took to be an eyebrow lash, and this was shown alongside it human "control."

NOT SUFFICIENT BLOOD

Several tests were made for blood with the Gualthie method, and these were definitely positive. Haenian crystals were not obtained, however. The Bordet precipitate test, for human blood, gave negative results, and a saline extract of tissue gave no

color. There was not really sufficient blood to test adequately, he said.

In one piece of muscle fibre found, continued witness, red blood cells were seen. These had been retained in a capillary membrane or otherwise would have disappeared long before that time. The spectroscopic test failed; the Bordet test gave

negative results, though there was scarcely enough blood to test, he reiterated, in answers to questions. Fibres, fat, muscle tissues were "intimately mixed," continued witness, on the article to be tested.

The specimens exhibited included an eyebrow hair, red cells, muscles, (Concluded on page 18)

FALL
SHOE
SALEBEGINS THURSDAY
— MORNING —

—Boys' Store, Lower Main Floor

DAVID SPENCER, LIMITED

JOSIE SEDGEWICK AND "NO NAME."—The Los Angeles girl who has been chosen as queen of the annual wild west round-up at Pendleton, Oregon, is shown above with her apparently docile mount, which, however, has the reputation of being the most wicked of all the world's bucking bronchos. It is so savage that its owner has never been able to fasten a name upon it and therefore it has been christened "No Name."

PEACEMAKERS—Rev. Warren L. Steeves, pastor of First Baptist Church in Lima, O., and his wife (above) run a domestic relations bureau for their congregation. They have been successful in patching up threatening divorces of some of their flock.

OLD TIME RED MAN "STUFF"—The little village of Rama, Ontario, was a scene of bustling activity when Indians, with their wives and families gathered for the second annual Rama Indian Fair. After the judging and awarding of prizes for agricultural and industrial exhibits, a parade and war dances were held. Right, Chief Tom Shilling of the Rama Ojibways, who along with two other hereditary chiefs, Chief Joe Yellowhead and Chief Dave Simcoe, took up the tomahawks and war clubs of their forefathers and danced before the spectators. Centre of photograph on right is Chief Joe Yellowhead, with the two other chiefs, and A. G. Smith and W. A. Langdon of Orillia. Chief Joe Yellowhead can remember when his father took the warpath in the Mackenzie rebellion.

NEARLY A BAD ONE HERE—A remarkable motor accident which might have resulted in serious consequences occurred at the Vale of Avoca Bridge, Moore Park, Toronto, when a large truck driven by Bertram Griffin, crashed into the side of the structure, the front wheels and half of the body hanging over the edge. But for the raised sidewalk, a tragic fatality would have been recorded.

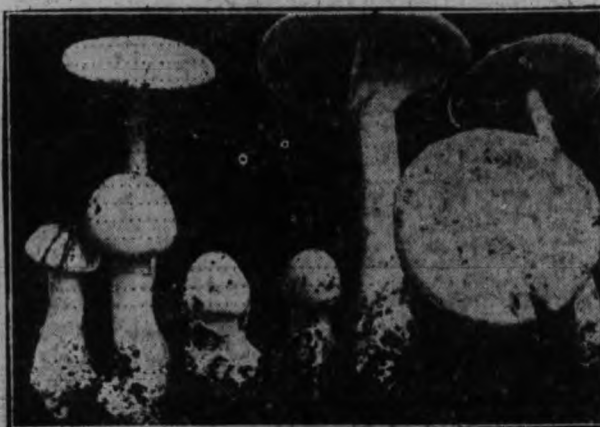

CANADA'S WOMAN GOLFER—Mrs. Harold Hutchings of Winnipeg, who won the qualifying medal in the ladies' closed golf championship of Canada at Ft. Credit.

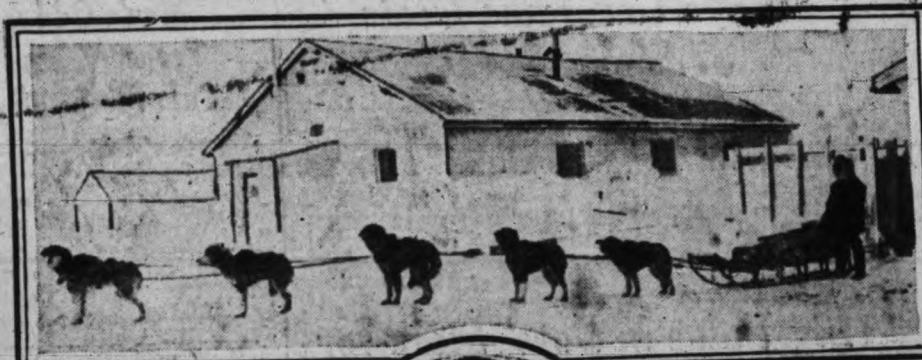

MAKE FRIDAY TRADITION COME TRUE—Mr. and Mrs. Joseph W. Taylor, photographed at the home of the bride's father, J. S. McCannell, 2 Lampert Avenue, Toronto, an hour after their marriage Friday. Mrs. Taylor—Miss McCannell, as she then was—caught the bridal bouquet which was thrown after the Canon-Fair wedding Thursday night. Then there she and Mr. Taylor, who had been engaged for some months, decided to make sure that the old tradition should come true, and that the girl who caught the bouquet should be the next bride.

CANADA'S OLDEST FINANCIER—Aged ninety-eight years last April, Adam Brown, for thirty years postmaster at Hamilton, motored to Toronto and back last week, to attend a meeting of the Canada Life Assurance Company. He is shown at his desk in the company's offices. For seventy years Mr. Brown has not missed an annual meeting of the company. He is said to be the oldest life insurance policy holder in Canada.

BEAUTIFUL AMANITA AND ITS DANGER SIGNAL—Above are shown eight specimens of the "Destroying Angel" Amanita phalloides, about one ounce of which, if eaten, spells certain painful and lingering death. Below are six types of the "death-cup," which, with its permanently white gills, is the sign by which all Amanitae may be recognized. Just as nature has attached a danger signal to the tail of the rattlesnake, she has placed one at the root of these no less deadly fungi.

HERSCHEL ISLAND IN JUNE—Below is Rev. W. A. Geddes, home on furlough to attend the Anglican Synod in London, after four years' missionary work among the Eskimos on Herschel Island. He works and travels alone among the natives. He is his own cook and bakes his own bread. Above is a typical June scene on Herschel Island, which is 400 miles north of the Arctic circle and 2,000 north of Edmonton.

RUNNING—The latest photo of John W. Davis, Democratic candidate for the United States presidency.

BEAUTY IS LUCKY AS WELL—Mademoiselle Edmonde Guy of Paris, who dazzling beauty has raised her from a little mid-inette of the faubourgs into one of the most adored idols of the French stage, and who, during her recent sojourn at the ultra-fashionable watering-place of Beauville, experienced phenomenal luck in her ventures at the baccarat tables in the casino, having cleared over 100,000 francs in one session alone.

PRINCIPAL QUILTS—Mrs. Emma Scott Nasmyth, who has announced that she was resigning as principal of the famous Margaret Eaton School of Literature and Expression of Toronto.

NEW CHINA MISSION SEMINARY IS OPENED—Among the prominent members of the Roman Catholic clergy who attended opening and blessing of the new St. Francis Xavier China Mission Seminary on the Kingston Road near Toronto, were, left to right, Bishop Forbes, of Joliet, Quebec; Bishop M. P. Fallon of London, Ont.; His Grace Archbishop Neil McNeil of Toronto; Bishop O'Brien of Peterboro; and Rev. J. M. Fraser, head of the seminary.

SAANICHTON FAIR
ENTRIES PRAISED
FOR HIGH QUALITY

Best Potatoes in Province Are Shown; H. C. Oldfield Wins Tolmie Cup; Prize Awards

Crediting Saanich with the finest display of potatoes shown this year at any agricultural fair in the Province, judges at Saanichton yesterday had a hard task in making the awards. There are over seventy entries, and Cecil Tice, agronomist of the Provincial Department of Agriculture, remarked on the singular freedom from disease prevailing among all the exhibits.

"It is a direct result of the enthusiasm with which the farmers of Saanich have taken up the certified seed work and a tribute to the merits of this campaign by the Provincial Department of Agriculture," said Mr. Tice.

In the fruits section the display of apples is of outstanding merit, the quality of the many entries of Kings, Jonathans being remarkable for the brilliant colorings far above the average and a credit to Saanich fruit men, according to E. W. White, who made the awards.

The Fall apples are represented by a wide range, practically all classes being entered, the early apples not being so well represented either in numbers or quality, due to seasonal handicaps this year.

The ladies of Saanich have rallied to the Saanichton Fair this year with the largest array of bread and cakes which has ever been mustered, more than one half the long cent table being required for the display of the dainties.

TOLMIE CUP
H. C. Oldfield again won the Tolmie Cup for the best collection of vegetables, his entry being an amazing collection to come from one garden, there being over a hundred distinct varieties on display. The smaller collection of George Little earned second place in this competition, the outstanding quality of his produce being conceded.

The floral features of the display this year owe much to Mr. Oldfield, for a centre display of begonias and to Palmer's dahlias display, the latter being remarkable for the enormous size and brilliant colorings of some of the latest productions of the horticulturist's craft.

The Growers' Wine Company, a peculiarly Saanich industry, is worth to the fore with a tableau featuring the famous Vin Soliel loganberry wine, while the Dominion Government Experimental Farm at Sidney has a display of educational character on the stage.

The past season has been peculiarly suitable for root crops and Fall wheat in Saanich, judges of both these classes declaring the entries at

WE HAVE A PROPOSITION
For anyone looking for a really beautiful home, here is a chance. This beautiful residence is in a semi-finished state, so far having been built by the owner, but who, through ill-health, has to give up his undertaking. There are 6 lovely rooms downstairs, completely finished, and 3 additional rooms to be added and plastered upstairs. All the electrical wiring and plumbing installed. The lower floor is beautifully finished, having very large living-rooms, richly paneled and beamed; white enameled bedrooms, with separate wash basin; electrically heated kitchen, large bathroom, scullery, pantry, etc. Large pressed brick fireplace in all rooms. Full sized 3 1/2 basement. Well-built garage. Desirable location on paved street, close to a bus. An inspection of this property will convince you of its exceptional possibilities. Come in and talk over the proposition with us to-day. This home goes to the first offer of \$1,900, the cost, exclusive of owner's labor.

Special: best collection of small fruit, put up in quart jars, six varieties; not to be done by steam pressure—1, Mrs. L. Hafer; 2, Mrs. Darcus.

PROGRESS
After the first novelty of weekly beautification at Armande's had worn off, Julie began to amuse herself during the tedious curling process by trying to translate the French conversational exchange between Armande's assistants. Many of them spoke no English at all, and Julie noticed that the other customers conversed with them easily in French.

She wished she could speak with the confidence of those other women who occupied the adjoining cubicles behind rose-silk curtains. She recalled her own acute discomfort the night of the fateful Jennings dinner party when every guest was herself conversed in French with the guests from the diplomatic corps.

She mentioned her unfamiliarity with the language to the girl who had become her adviser, adding that she would like to learn French if she could tell her wavy hair she liked her hair done.

"Would you like to learn, Mrs. Blake? We can send you to an excellent teacher."

The resourceful young person went away and returned with a small engraved card.

"Introducing Mr. Gabriel Latour, who will give instruction in conversational French, either en classe, or by private appointment in his parlour. Armande knew Mr. Latour in Paris, the girl explained. "He was a French aviator and was so badly wounded in the war that he couldn't speak English—he has come to this country to teach. We've sent lots of our ladies to him. They're all crazy about him. Armande gave us girls tickets to hear him lecture at the French society one night. I didn't understand a word he said, but he was awfully good-looking and Armande says he got a lot of medals for bravery during the war."

Julie visited Latour's studio that very afternoon. It took all her courage to force herself to the ordeal. The old shyness gripped her, but before her resolution faltered the caught a glimpse of her reflection in a shop window. The sight was reassuring. Little about the trim, smart figure reflected there to suggest the shy, diffident Julie of old.

Latour was a charming, well-bred young Frenchman. The faint hollows in his lean, olive-skinned cheeks and the melancholy of his dark, eloquent eyes suggested both an inspired condition and the tragedy of an abandoned career.

Julie was thrown into confusion by the group of smartly gowned women who ceased their chatter to appraise her as she was shown into the studio by a man servant, but Latour himself put her instantly at her ease. She liked him at first sight. He spoke excellent English with just a trace of an accent. It was a very simple matter to arrange for private instruction until such a time as she was proficient enough to join the class already under way.

She went home with an appointment for the following afternoon, and privately congratulated herself on her initiative.

Jimmy Phillips was waiting in his rakish car outside the hotel. It was a tribute to the change in Julie's appearance that he failed to recognize her.

"Gosh!" his eyes popped with genuine admiration. "I didn't know you Julie. I was asking myself who the good-looking chicken was, coming down the stairs."

"Jimmy, I want you to teach me to

REPORT SUCCESS IN HATCHING STURGEON
Variety Sought by Fish Dealers and Unobtainable For Many Years

Winnipeg, Oct. 1.—For the first time in the history of North America, sturgeon fry have been hatched successfully. The feat was performed at Pigeon River, which empties into Lake Winnipeg, by officials of the Federal Department of Marine and Fisheries.

These officials sent specially to Pigeon River, spread their nets. The result was the capture of a pair of sturgeon, one five feet long and weighing more than 100 pounds, while the other was slightly smaller. Large tents in the nets showed where other powerful sturgeon had been caught, but had torn themselves loose.

From the two fish, the officials were successful in hatching 8,000 eggs, but new sturgeon in large numbers were released into Lake Winnipeg a few days ago.

The sturgeon, according to department officials, are the fish without peer for sale on the market. Much larger than salmon, sometimes reaching a weight of 300 pounds, the sturgeon is the much sought prize of all the fish companies. In former times there was considerable sturgeon in the Lake of the Woods and the Manitoba lakes but the constant shrinking caused by large scale operations of fish companies practically made this variety unobtainable for many years.

Both the Canadian and United States governments have endeavored to hatch sturgeon, but hitherto without success.

Until the season's operations on the Pigeon River it was thought impossible. The Department of Fisheries has announced that these operations will be carried out on a much larger scale next year and thereafter.

The Surprising Sex
By MILDRED BARBOUR—A "hor of 'Love Stakes,' Etc.

Julie commanded without preamble. "Will you?"

"Will a duck swim?" he countered swiftly. "Say, you're getting to be the cat's whiskers. Hop in and before night I'll bet I'll have taught you to shake a wicked ankle."

Blake was all unconscious of the change in Julie. The first place, he was very busy at the Capt. There was the usual amount of filibustering before the delayed adjournment of Congress and the usual dogged effort to break the filibuster and put across urgent measures before the end of the session. For some Congressmen, it meant a swan song; for others like Blake, it offered an opportunity for fresh honors.

The second reason why Blake failed to notice a change in his young wife, was that he had come to accept Julie as she was. He had known her since she was a child, and she had done nothing to indicate that her nature was beginning to sky-rocket.

Moreover, he rarely saw her in her new costumes. They breakfasted together at the hotel, and he had seen her in a simple frock or negligee and Blake with an eye on the morning paper. When he dined at home at all, the meal was likewise served upstairs and he buried himself in work immediately afterward. They had altogether ceased going out to social functions. Sometimes Blake felt a twinge of solitude over his neglect of Julie, but she seemed happy. Anyway, he reflected, they'd be going home soon for the Summer and Julie would have a taste of small town life and he would be able to tell her about the war.

His amazement knew no bounds when Julie announced that she didn't intend to accompany him when he left for Cranston.

ness, from what animal body the remains came from?

Witness: In my opinion?

Mr. Jackson: Yes.

Witness: Human.

Continuing, witness stated that Exhibit 38, the other section of door handle fragment, bore traces on the valentine of the impress of what appeared to be clothing.

On cross-examination witness said this clothing mark looked as if made by serge. Witness pointed out to Mr. Maclean a lens where this mark showed up on the exhibit mentioned.

Mr. Maclean: Might it be any clothing?

Witness: Serge is what it suggests to me.

Mr. Maclean: But it might be anything else?

Witness: Yes.

TORONTO BLOOD SERUM

Mr. Maclean: You had to import serum for this case, did you?

Witness: The San Francisco serum was not used.

Mr. Maclean: I see, you used the Canadian product; well there is some satisfaction in that!

Witness went on to explain that the Toronto serum had been accompanied by a certificate, but Mr. Maclean said he did not want to hear about any certificate. The fact remained, he would suggest, that nobody knew whether the serum was good or bad. If bad its results would be all wrong.

Witness agreed with the conclusion, but not with the premise. The Bordet test, he said, had been used with success in Great Britain for the last ten years.

Mr. Maclean recited again from his reference on blood tests written by said by a gentleman who had a "lot of stuff" after his name. Human blood could not be positively identified by the medical science, he would suggest.

Witness agreed with him.

Mr. Maclean: Yet you say this is human blood?

Witness: No, I gave it as my opinion only.

Mr. Maclean: You have written a book on this subject, I suppose?

Witness: No.

Mr. Maclean: Well you ought to! Did you find any blood corpuscles?

Witness: Yes.

Mr. Maclean: How many?

Witness: I did not count them, but there were not enough to give the color of blood.

Mr. Maclean: You tried the Bordet test and found nothing?

Witness: It gave negative results.

Mr. Maclean: You mean in other words it gave no results.

Dr. Walker was still in smiling possession of the field when counsel for the defence took his seat.

While the buzz of excitement occasioned by hours of the most spirited battle in cross-examination was still at its height Mr. Jackson declared that the Crown would rest its case at that point. An adjournment followed, until 10 a.m. to-day.

ST. ANN'S ACADEMY IS OPERATING WITH FINANCIAL BURDEN

Situation Set Out in Statement to City Authorities

A rather depressing report is made on the finances of St. Ann's Academy in the financial statement filed with the city authorities in connection with the application for it to be treated as an orphanage, and therefore exempt from taxation.

It is pointed out that the high cost of living, and the general depression of business reflects on the sisterhood very heavily, "but we have kept on in hopes of better times."

The financial statement shows an operating deficiency of \$15,548 last year, expenditure being \$52,881 as compared with receipts totaling \$34,333.

It is stated that the deficit of the year, and of other years is partly met by contributions from provincial administrations and branch houses of the order, and by loans.

The provincial administration carries a debt of \$196,000 on all the houses in the province.

The sisters of St. Ann practically save the city of Victoria by providing for the education of their children, the keeping of orphans at Victoria, Duncan and Nanaimo, on an average of \$23,000 per year. In sixty-five years this would represent \$1,485,000.

The sisters have turned into the public coffers for taxes alone about \$24,100 in the past ten years. The B.C. Legislature gives a grant for the orphans at Duncan and Nanaimo. The balance of cost comes from the general funds which are becoming rapidly depleted, and the ability to loan money will soon be reduced, the statement says.

The city had to carry a main sewer through the property, a circumstance due to the physical situation of the land, and this, it is alleged, has depreciated the property, and reduced its value.
